THURSDAY SESSIONS

Session T1A: A Mini-Workshop on How People Learn
Chair: Louis Everett, National Science Foundation
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix C

A MINI-WORKSHOP ON HOW PEOPLE LEARN
Louis Everett, Susan Finger, Don Millard, Russell Pimmel, Janis Terpenny and John Yu .......................... 111

Session T1B: Mini Workshop - Innovation for a Crowded Curriculum: Learning Modules for Tomorrow's Energy Engineers
Chair: Donna Riley, Smith College
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix D

MINI WORKSHOP - INNOVATION FOR A CROWDED CURRICULUM: LEARNING MODULES FOR TOMORROW'S ENERGY ENGINEERS
Donna Riley .......................................................................................................................... 111

Session T1C: Examples of Progress in Online Learning: Assessment and New Contexts
Chair: Manuel Castro, Spanish University for Distance Education
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix B

WORK IN PROGRESS - ASSESSING COGNITIVE SKILLS IN ASYNCHRONOUS ONLINE DISCUSSION: A CASE STUDY OF STUDENT CENTERED E-LEARNING ENVIRONMENT IN INDONESIA
Harry Budi Santoso, Oenardi Lawanto, Zainal Arifin Hasibuan and Rizal Fathoni Aji ............................. 111

WORK IN PROGRESS - CLASSROOM AND DISTANCE COMPONENTS OF A GKI2 PROGRAM PLACING GRADUATE STUDENTS IN HIGH SCHOOL CLASSROOMS
Justin Brough, Mary Baker and Dominick Casadonte ....................................................................... 111

WORK IN PROGRESS – PERFORMANCE EVALUATION OF ONLINE LEARNING TOOLS
Alexander A. Kist and Andrew P. Wandel ....................................................................................... 112

SUCCESSFUL PRACTICES FOR ONLINE COMPUTING, ENGINEERING, AND TECHNOLOGY COURSES
Carol J. Romanowski, Rajendra K. Raj and S. Manian Ramkumar .................................................. 112

WORK IN PROGRESS – ONLINE TEACHING AND LEARNING STRATEGIES FOR PROGRAMMING-INTENSIVE COURSES
Venkat N. Gudividada, Chunbo Chu and Dhana L Rao ................................................................. 112

Session T1D: Strategies for K-12 Initiatives: Engineering Projects and Teaching Development
Chair: Jennifer S. Kay, Rowan University
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 101

IMPROVING ENERGY LITERACY AMONG MIDDLE SCHOOL YOUTH WITH PROJECT-BASED LEARNING PEDAGOGIES
Jan E. DeWaters and Susan E. Powers .......................................................................................... 112

EVALUATION OF A K-8 LEGO ROBOTICS PROGRAM
Tanja Karp and Andreas Schneider ............................................................................................... 113

WORK IN PROGRESS - INITIATING THE BEAVER CONTEST ON COMPUTER SCIENCE AND COMPUTER FLUENCY IN ISRAEL
Bruria Haberman, Haim Averbuch, Avi Cohen and Valentina Dagiene ........................................ 113

HIGH SCHOOL TEACHER DEVELOPMENT WORKSHOPS THAT CREATE LONG-TERM STUDENT IMPACT
Jane Petrus, James Nelson, Galen Turner and Kelly Crittenden ...................................................... 113

WORK IN PROGRESS - NEESACADEMY AS A CYBER-ENABLED LEARNING EXPERIENCES FOR K-16 EARTHQUAKE ENGINEERING AND SCIENCE EDUCATION
Sean Brophy, Jason Lambert and Thalia Anagnos ........................................................................ 113

Session T1E: Instructional Technologies and Course Design: Synergies
Chair: Miguel Rodriguez-Artacho, Spanish University for Distance Education - UNED
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 102

WORK IN PROGRESS - ENHANCING COMMUNICATIONS AMONG COURSES LINKED WITH PREREQUISITETES
Ziliang Zhou ................................................................................................................................. 114

EDUCATORS + TECH-HEADS = ED-TECHS, THE SYMPHONY
Patrick Keleher and John Mark ........................................................................................................ 114

Table of Contents
Session TIF: Advances in Engineering Design: Capstone Course and Project-based Learning
Chair: Eric Pappas, James Madison University
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 201/202

ENGINEERING CAPSTONE PROJECT AN INDIVIDUAL APPROACH
Carlos Miguel Tobar Toledo, Ricardo Luis de Freitas and Juan Manuel Adan Coello .............................. 115

WORK IN PROGRESS - A COMPARISON OF MENTORING FUNCTIONS IN CAPSTONE COURSES ACROSS ENGINEERING DISCIPLINES
James J. Pembridge and Marie C. Paretti .................................................................................................... 116

ON PROJECT-BASED LEARNING THROUGH THE VERTICALLY-INTEGRATED PROJECTS PROGRAM
Chin-Hui Lee, Meredith Baxter, Byungki Byun, Edward J. Coyle, Tuan Dang, Thomas Dwyer, Ilseo Kim, Ross Llewellyn and Nashalie Sehus ................................................................. 116

WORK IN PROGRESS - PEER-DIRECTED LEARNING IN A PROJECT BASED MODEL
Andrew McNally .............................................................................................................................................. 116

Session TIG: Approaches to Development Global Competency
Chair: Peter Golding, University of Texas at El Paso
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 205

A SENIOR SERVICE-LEARNING DESIGN PROJECT IN ECUADOR
Rob Gradoville and Dan Budny .................................................................................................................. 116

GLOBAL SYSTEMS: ADVANCING GLOBAL COMPETENCY IN AN INNOVATIVE COURSE FOR SOPHOMORES
Ronald Rosenberg ........................................................................................................................................ 117

WORK IN PROGRESS - THE PROCESS OF EVALUATING THE IMPACT OF AN INTERNATIONAL EXPERIENCE ON STUDENTS’ GLOBAL ENGINEERING SKILLS
Catherine T. Amelink, Nicole Sanderlin, Elizabeth Tront and Joseph G. Tront ............................................. 117

HUMAN SIDE OF ENGINEERING: DEALING WITH COMPLEX AND ETHICAL CHALLENGES
Melany M. Ciampi and Claudio da Rocha Brito ........................................................................................... 117

AN EVALUATION OF THE AUSTRALIAN ENGINEERS WITHOUT BORDERS CHALLENGE FROM THE COURSE COORDINATORS’ PERSPECTIVES
Stephanie Cutler, Dan Loden and Maura Borrego ....................................................................................... 117

Session TIH: Advances in Software Engineering Education: Teams and Projects
Chair: Maria Earle, The University of Houston
Time: Thursday, October 13, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 206

WORK IN PROGRESS - INNOVATIVE TEACHING OF SOFTWARE ENGINEERING COURSE: INTEGRATING WITH A MINI PROJECT
Padmashree Desai, Gopalkrishna H Joshi, Karuna Gull and M Vijayalakshmi ........................................... 118

WORK IN PROGRESS - ELASSYS: ONLINE TOOL FOR TEAMWORK ANALYSIS AND ASSESSMENT IN SOFTWARE ENGINEERING EDUCATION
Alexandr Mamei, Rainer Todtenhoefer and Dragutin Petkovic .................................................................... 118

TEACHING STUDENTS SOFTWARE ENGINEERING PRACTICES FOR MICRO-TEAMS
Shweta Deshpande, Joe Bolinger, Thomas D. Lynch, Michael Herold, Rajiv Ramnath and Jayasheer Ramanathan ................................................................. 118

DEVELOPING CASE MODULES FOR TEACHING SOFTWARE ENGINEERING AND COMPUTER SCIENCE CONCEPTS
Salamah Salamah, Massood Towhidnejad and Thomas Hilburn .............................................................. 119

HOW TO INVOLVE STUDENTS IN FOSS PROJECTS
Heidi J.C. Ellis, Gregory W. Hislop, Mel Chua and Sebastian Dziallas .......................................................... 119
Table of Contents

Session T1J: Topics in Engineering Education 1
Chair: G. Jimmy Chen, Salt Lake Community College
Time: Thursday, October 13, 2011, 9:00 a.m. - 9:30 a.m. Civic Center Ponderosa Room

PROPOSAL OF METHODOLOGY FOR LEARNING OF STANDARD MECHANICAL ELEMENTS
Jorge Martin-Gutierrez ................................................................. 119

RESULTS FROM A PILOT SURVEY OF ENGINEERING AND ENGINEERING TECHNOLOGY
STUDENTS IN 2-YEAR AND 4-YEAR INSTITUTIONS
Michael T. Gibbons, Elizabeth T. Cady, Catherine Didion and Norman L. Fortenberry ......................... 119

ASME VISION 2030: HELPING TO INFORM MECHANICAL ENGINEERING EDUCATION
Scott Danielson, Allan Kirkpatrick and Edie Ervin ................................................................. 120

WORK IN PROGRESS - DEVELOPMENT AND INTEGRATION OF AN ONLINE SOIL MAPPING WEB APPLICATION
Laura A Kocur, Ronald J. Glotzbach, Darrell G Schulze and Christopher C Miller ................................ 120

MJELIOT: ICT SUPPORT FOR INTERACTIVE TEACHING OF PROGRAMMING
Arnold Pears and Moritz Rogalli ................................................................. 120

Session T2A: Special Session - Cognitive Processes Critical for Ill-Defined Problem Solving: Linking Theory, Research, and Classroom Implications
Chair: Senay Purzer, Purdue University
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room LaCroix C

SPECIAL SESSION - COGNITIVE PROCESSES CRITICAL FOR ILL-DEFINED PROBLEM SOLVING:
LINKING THEORY, RESEARCH, AND CLASSROOM IMPLICATIONS
Senay Purzer and Jonathan C. Hilpert ......................................................... 120

Chair: Gary Downey, Virginia Polytechnic Institute and State University
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room LaCroix D

PANEL - WHAT IS GLOBAL ENGINEERING EDUCATION FOR?: THE MAKING OF INTERNATIONAL EDUCATORS
Gary Downey and Kacey Beddoes ................................................................. 121

Session T2C: Integrating Sustainability, Teamwork, and Communication with Engineering Courses
Chair: Dan Budny, University of Pittsburgh
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room LaCroix B

WORK IN PROGRESS: DATA-RICH LEARNING ENVIRONMENTS FOR ENGINEERING EDUCATION
William DeLuca, Aaron Clark, Jeremy Ernst and Nasim Lari ................................................. 121

WORK IN PROGRESS - ADAPTING TEAM-BASED LEARNING TO THE FIRST CIRCUIT THEORY COURSE
Robert M. O'Connell ................................................................. 121

WORK IN PROGRESS - MATCH OR MISMATCH? THE TEACHING AND LEARNING OF TEAMWORK AND COMMUNICATION SKILLS
Holly M. Matusovich, Marie Paretti, Andrea Motto and Kelly Cross ........................................ 121

A GROUNDED THEORY APPROACH TO EFFECTS OF VIRTUAL FACILITATION ON TEAM COMMUNICATION AND THE DEVELOPMENT OF PROFESSIONAL SKILLS
Uyen Mai, Daniel Swift, Tracey Wiggins and Ray Luechtefeld ................................................. 122

A NOVEL PEDAGOGICAL TOOL INTEGRATING SUSTAINABILITY COMPETENCE INTO ENGINEERING DEGREES
Yolanda Bolea and Antoni Grau ................................................................. 122

Session T2D: Enhancing Student Success and Development via Introductory Engineering Courses
Chair: Koenraad Gieskes, Binghamton University
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room 101

MIXED REALITY FOR DEVELOPMENT OF SPATIAL SKILLS OF FIRST-YEAR ENGINEERING STUDENTS
Jorge Martin-Gutierrez, Rosa E. Navarro and Montserrat Acosta Gonzalez ................................ 122

A PASS/FAIL OPTION FOR FIRST-SEMESTER ENGINEERING STUDENTS: A CRITICAL EVALUATION
Ken Stanton and Tom Siller ................................................................. 123
AN INTRODUCTORY ELECTRONICS COURSE ORIENTED TO DEVELOP
REAL-LIFE-ENGINEERING DESIGN SKILLS
Ariel Lutenberg, Sebastian Carbonetto, Mariano Garcia Inza, Daniel Rus,
Gabriel Venturino, Luciano Natale and Federico Zaccigna .......................................................... 123
WORK IN PROGRESS - EXTENDING PARALLELISM EDUCATION TO THE FIRST YEAR
WITH A BOTTOM-UP APPROACH
Gregory Lammers and Cordelia Brown .......................................................... 123
WORK IN PROGRESS – DESIGN AND THE ROBOTICALLY-CONTROLLED MINI-PLANT
IN FRESHMAN CHEMICAL ENGINEERING
Bill B. Elmore .................................................................................................................. 123

Session T2E: Engineering Frontiers of Instructional Technologies
Chair: Gordana Jovanovic Dolecek, Institute INAOE
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 102
WORK IN PROGRESS - LOM4CE: LOM FOR THE CONTENT ECOSYSTEM
Alfonso Vicente, Regina Motz, Martin Llamas-Nistal and Manuel Caiero .............................................. 124
WORK IN PROGRESS - DEVELOPING A COGNITIVELY BASED DIGITAL LOGIC CALCULATOR
Joseph Handzik and Geoffrey Herman .......................................................... 124
THE THIRD DIMENSION IN OPEN LEARNING
Colin Allison, Alan Miller, Thomas Sturgeon, Indika Perera and John McCaffrey .................................. 124
WORK IN PROGRESS: A VIDEO GAME FOR TEACHING DYNAMICS
Brian Collier .................................................................................................................. 124
WORK IN PROGRESS - A FRAMEWORK FOR ASSESSING THE IMPACT OF INSTRUCTIONAL
TECHNOLOGY ON THE NATURE OF TEACHING AND LEARNING
Catherine T. Amelink and Glenda Scales .................................................................................................. 124

Session T2F: Approaches to Involving Students at All Levels in Research
Chair: Amar Khoukhi, King Fahd University of Petroleum and Minerals
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 201/202
UTILIZING TOPIC MODELING TECHNIQUES TO IDENTIFY THE EMERGENCE AND GROWTH OF
RESEARCH TOPICS IN ENGINEERING EDUCATION
Aditya Johri, Alan Wang, Xiaomo Liu and Krishna Madhavan .......................................................... 125
A SYSTEM FOR FORECASTING STUDENT PERFORMANCE BASED ON COURSE EVALUATION
Rodrigo Maia and Selma Shin Shimizu Melnikoff .................................................................................. 125
ON PROVIDING SUCCESSFUL RESEARCH EXPERIENCES FOR UNDERGRADUATES
Reynold J. Bailey, Hans-Peter Bischof, Minseok Kwon, Tracy Miller and Rajendra K. Raj ...................... 125
DESIGN-BASED RESEARCH: A FRAMEWORK FOR DESIGNING NOVEL TEACHING AND LEARNING
EXPERIENCES IN MIDDLE SCHOOL ENGINEERING EDUCATION
Tirupalavanam G. Ganesh .................................................................................................................. 125
WORK IN PROGRESS – EXPLORING THE EVOLUTION OF THE MENTORING RELATIONSHIP
IN A SUMMER UNDERGRADUATE RESEARCH PROGRAM
Renata A. Revelo Alonso and Michael C. Loui .......................................................................................... 126

Session T2G: Transforming Engineering Laboratories through Information Technologies
Chair: Mary Kasarda, Virginia Polytechnic Institute and State University
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 205
WORK IN PROGRESS - ENHANCING STUDENTS LEARNING THROUGH INSTRUCTIONAL
VIDEOS DURING HANDS-ON LABORATORIES ON RENEWABLE ENERGY SOURCES
Oxana Pantchenko, Shehba Shahab, Daniel Tate, Philippe Matteini, Michael Isaacson and Ali Shakouri ....... 126
SERIOUS GAMING FOR EXPERIENTIAL LEARNING
David Gouveia, Duarte Lopes and Carlos Vaz de Carvalho ................................................................ 126
A PIC18 ROBOT-CENTERED MICROCONTROLLER SYSTEMS LABORATORY
Kathleen A. Kramer and Michael Anderson .......................................................................................... 126
MODULES AND LABORATORIES FOR A PATHWAYS COURSE IN SIGNALS AND SYSTEMS
Konstantinos Tsakalis, Jayaraman J. Thiangarajan, Tolga Duman, Martin Reisslein,
G. Tong Zhou, XiaoLi Ma and Photini Spanias .................................................................................. 127
CONTROL SYSTEM EXPERIMENTS AT HOME
Musa K. Jouaneh and William J. Palm, III. .......................................................................................... 127
### Table of Contents

#### Session T2H: New Directions Influencing Participation of Women in Engineering
Chair: Catherine Didion, National Academy of Engineering
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 206

1. **INSPIRING FUTURE FEMALE SCIENTISTS**
   - Marsha Zaidman .......................................................... 127

2. **THE CO-OPERATIVE EDUCATION WORK TERM: A COMPARISON OF EXPECTATIONS AND OUTCOMES FOR INTERNATIONAL ENGINEERING GRADUATES IN CANADA**
   - Sandra Ingram and Anita H. Ens .................................. 127

3. **WOMEN AND HIGHER ENGINEERING EDUCATION — CHOOSING ONE’S DEGREE PROGRAM**
   - Aura Paloheimo, Kaisa Poljønen and Pirjo Putila .................. 128

4. **IMPACT OF INTRODUCING SINGLE-GENDER CLASSROOMS IN HIGHER EDUCATION ON STUDENT ACHIEVEMENT LEVELS A CASE STUDY IN SOFTWARE ENGINEERING COURSES IN THE GCC REGION**
   - Amir Zeid and Rehab Elbahey ...................................... 128

5. **RESULTS FROM REPEATED EVALUATION OF AN ONLINE TUTOR ON INTRODUCTORY COMPUTER SCIENCE**
   - Amruth N. Kumar ...................................................... 128

#### Session T2J: Graduate Students, Graduate Programs, and Preparing Engineering Graduates
Chair: Craig G. Downing, Rose-Hulman Institute of Technology
Time: Thursday, October 13, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Ponderosa Room

6. **WORK IN PROGRESS - DESIGN AND DELIVERY OF THE GRADUATE COURSE ON ELECTRONIC SYSTEMS INTEGRATION**
   - Qing Zheng, Ramakrishnan Sundaram and Fong Mak ............... 129

7. **WORK IN PROGRESS - IDENTIFICATION OF BEHAVIOR PATTERNS WITHIN GRADUATED STUDENTS AT THE TECHNICAL UNIVERSITY OF CARTAGENA, SPAIN**
   - Alvaro Botia, Mathieu Kessler and Angel Molina-Garcia .......... 129

8. **THE CHALLENGE OF EMBEDDING INFORMATION LITERACY AS A GRADUATE ATTRIBUTE INTO ENGINEERING AND TECHNOLOGY COURSES**
   - Patrick Keleher, Joanne Keleher and Karin Simon ................. 129

9. **WORK IN PROGRESS - EFFECT OF DEPARTMENTAL CULTURE ON EPORTFOLIOS FOR GRADUATE ENGINEERING PROGRAMMATIC ASSESSMENT**
   - Mahnas Mohammadi-Argh and Lisa McNair .......................... 129

10. **WORK IN PROGRESS – DEVELOPING A GRADUATE CONSORTIUM IN ENGINEERING EDUCATION**
    - Lauren D. Thomas, Brook Sattler and Adam R. Carberry .......... 130

#### Session T3A: Mini Workshop - A Strategy for Assessing Student Work on Open-Ended Problems
Chair: Heidi A. Dieffe-Dux, Purdue University
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Room LaCroix C

11. **MINI WORKSHOP - A STRATEGY FOR ASSESSING STUDENT WORK ON OPEN-ENDED PROBLEMS**
    - Heidi A Dieffe-Dux and Monica E Cardella ....................... 130

#### Session T3B: Mini Workshop - Designing Project-Based Courses for Learning and Cost-Effective Teaching
Chair: Kristina Edstrom, Royal Institute of Technology
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Room LaCroix D

12. **MINI WORKSHOP - DESIGNING PROJECT-BASED COURSES FOR LEARNING AND COST-EFFECTIVE TEACHING**
    - Kristina Edstrom, Stefan Hallstrom and Jakob Kuttonkeuler ..... 130

#### Session T3C: Development of Critical Thinking, Lifelong Learning, Leadership, and Values: Integration within Engineering Curricula
Chair: Jim Morgan, Texas A&M University
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Room LaCroix B

13. **A BEHAVIORAL APPROACH TO BUILDING COGNITIVE FOUNDATIONS FOR EFFECTIVE THOUGHT AND ACTION IN A FRESHMAN CRITICAL THINKING COURSE**
    - Eric C. Pappas ...................................................... 131

14. **WORK IN PROGRESS – DEVELOPING AN INDIVIDUALIZED LIFE-LONG LEARNING PLAN FOR JUNIOR ELECTRICAL AND COMPUTER ENGINEERING MAJORS**
    - Michael Elmore and James Constable .............................. 131

---

October 12 - 15, 2011, Rapid City, SD

83
# Table of Contents

**Work in Progress - Assessment of a Leadership Curriculum**  
Andrew L. Gerhart, Donald D. Carpenter and Melissa L. Grunow ................................................................. 131

**Knowledge and Information Sharing Improved by Simulation Technology: A Quantitative Study**  
Adrienne Colbert, Angelica Guzman, Martha McQueen and Ray Luecktefeld .................................................. 131

**Student Development in the Co-Curriculum Through Values-Based Teaming**  
Dan Dolan, Michael Batchelder, James McReynolds, Kimberly Osberg, Ryan Koontz, Patricia Mahon, Michael Keegan and John Weiss ................................................................. 132

**Session T3D: Understanding How K-12 Learners Think about Engineering and How Technologies Might Influence their Beliefs**  
Chair: Carlos Vaz de Carvalho, Instituto Superior de Engenharia Porto  
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  
Civic Center Room 101

**Mobile Laboratory Programs as Vehicles to Promote STEM Education in K-12 and Beyond**  
Carl Franzblau, Carla A. Romney, Russell Faux and Donald DeRosa ................................................................. 132

**Work in Progress - Exercises in Squeak Smalltalk for Pre-College Education**  
Steve E. Watkins, Nicolette Kowalewski, Kathryn N. Rodhouse and Benjamin Cooper ........................................ 132

**Work in Progress - Sunrise: Schools, University ‘N’ (AND) Resources in the Sciences and Engineering-A NSF/GMU GK-12 Fellows Project**  
Rajesh Ganesan, Donna Sterling and Philip Henning ................................................................. 132

**Work in Progress - Developmental Engineering: Using Observation for Understanding Child Behaviors as Precursors to Engineering Thinking**  
Diana Bairakatarova, Demetra Evangelou and Christina Citta ................................................................. 133

**First Experiences with Blocks as an Assistive Technology for Individuals with Autistic Spectrum Condition**  
Jennifer Drain, Mario Riojas, Susan Lysecky and Jerzy Rozenblit ................................................................. 133

**Session T3E: Faculty Development: Perspectives from Peers and Students**  
Chair: Jim Borgford-Pannell, University of Washington  
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  
Civic Center Room 102

**A Review of an Engineering Teaching Apprenticeship Program**  
Kerry Meyers and Jay B. Brockman ................................................................. 133

**Work in Progress - Implementing Peer Observation of Teaching**  
Byron Garry, Li Qian and Teresa Hall ................................................................. 133

**Developing It Education in Tanzania: Empowering Students**  
Matti Tedre, Mikko Apiola and Josephat O. Oroma ................................................................. 134

**Cooperative Learning: Lessons and Insights from Thirty Years of Championing A Research-Based Innovative Practice**  
Karl A Smith ................................................................. 134

**Work in Progress - How to Provoke Creativity and Innovation Within the Classroom by Modifying the Role of Faculty**  
Lluis Vicent, Xavier Gumara and Malinda Fitzgerald ................................................................. 134

**Session T3F: Project-anchored and Team-based Approaches to Teaching Engineering Design**  
Chair: Michael Isaacsone, University of California at Santa Cruz  
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  
Civic Center Room 201/202

**Work in Progress - A Novel Approach to Carrying Out Mini Project in Computer Science & Engineering**  
Padmashree Desai, Gopalkrishna H. Joshi, M Vijayalakshmi and Karuna Gull ................................................................. 134

**A Two-Channel Bioamplifier Design as a Cross-Course Experience**  
Steve Warren, James DeVault and Kejia Li ................................................................. 135

**Work in Progress - An Innovative Design of a Master in Computer Science Program**  
Lixin Tao, Constantine Coutuas, Narayan Murthy and Richard Kline ................................................................. 135

**Student Perspectives on Learning Through Developing Software for the Real World**  
Christopher Dean, Thomas D. Lynch and Rajiv Ramnath ................................................................. 135
Table of Contents

TEAM-BASED SOFTWARE/SYSTEM DEVELOPMENT IN A VERTICALLY-INTEGRATED PROJECT-BASED COURSE  
Randal Abler, Ed Coyle, Agrita Kiopa and Julia Melkers ......................................................... 136

Session T3G: Are there new Approaches to Designing Engineering Laboratory Experiences?  
Chair: Michael E. Auer, Carinthia Tech Institute Villach, Austria  
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Room 205  
HIGH TECH GARBAGE CAN HELP ENGINEERING COLLEGES TO IMPROVE HANDS-ON EDUCATION  
Samuel E. de Lucena ................................................................................................................... 136  
‘GREEN’ REMOTE LABORATORY FOR CHEMICAL ENGINEERING DEGREE: A NEW PARADIGM FOR TRAINING  
Yolanda Bolea and Antoni Grau ................................................................................................... 136  
WORK IN PROGRESS - HANDS-ON LEARNING OF FUNDAMENTAL CONCEPTS IN ELECTROMAGNETIC FIELDS  
Yong Xu, Kathleen Meehan, Xiangyu Wei, Alan B. Overby and Cortney Martin .............................. 136  
A PRELIMINARY MOTIVATIONAL EVALUATION OF MILESTONE-BASED LABORATORY ASSESSMENT  
Ken Stanton and Euan Lindsay ...................................................................................................... 137  
WORK IN PROGRESS - CREATING A COLLABORATIVE LEARNING ENVIRONMENT FOR ENGINEERS AND TECHNOLOGISTS  
Craig Downing, Anneliese Watt, Julia Williams and Rick Stamper .............................................. 137

Session T3H: How Might Technological Developments Make Differences In the Lives of Engineering Students and People in General?  
Chair: Rachel A. Louis, Virginia Polytechnic Institute and State University  
Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Room 206  
ULTRA-LOW POWER AND THE MILLENNIUM GENERATION  
Antonio Mondragon and Adriana Becker-Gomez .............................................................................. 137  
WORK IN PROGRESS - DEVELOPMENT OF AN INTEGRATED CIRCUITS COURSE THAT INCLUDES THE FULL EXPERIENCE OF DESIGNING AN ASIC IN A CMOS PROCESS  
Jose Lipovetzky, Alejandro De La Plaza, Mariano Garcia Inza, Ariel Lutenberg, Martin Carra, Pablo Barbeito, Federico Dangiolo, Nicolas Rigoni and Luis Lopez .............................................. 137  
A NOVEL INTERDISCIPLINARY COURSE IN GERONTECHNOLOGY FOR DISSEMINATING COMPUTATIONAL THINKING  
Hen-I Yang, Peter Martin, Debra Satterfield, Ryan Babbitt, Johnny Wong,  
Mack Shelley and Carl K Chang ...................................................................................................... 138  
EFFECTIVENESS OF TECHNOLOGY EDUCATION LEARNING ACTIVITIES ON THE IMPROVEMENT OF SPATIAL SKILLS  
Susan K. Donohue .......................................................................................................................... 138  
WORK IN PROGRESS - PROGRAMMING IN A CONFINED SPACE – A CASE STUDY IN PORTING MODERN ROBOT SOFTWARE TO AN ANTIQUE PLATFORM  
Stacey L. Montresor, Jennifer S. Kay, Michel Tokic and Jonathan M. Summerton ............................ 138

Session T3J: Assessment: Changing Practice of Engineering Faculty and Behaviors Among Engineering Students

Chair: Arnold Pears, University of Uppsala, Sweden

Time: Thursday, October 13, 2011, 1:30 p.m. - 3:00 p.m.  Civic Center Ponderosa Room

THE EFFECT OF ASSESSMENTS ON A TELEMATICS COURSE FOR TELECOMMUNICATION ENGINEERS  
Maria-Dolores Cano ....................................................................................................................... 138  
LEGITIMIZATION OF SUBJECT MATTER IN A DESIGN INTENSIVE DEGREE PROGRAM  
Charles D. Cox ............................................................................................................................... 139  
FIVE YEARS WITH KATTIS – USING AN AUTOMATED ASSESSMENT SYSTEM IN TEACHING  
Emma Enstrom, Gunnar Kreitz, Fredrik Niemela, Pehr Soderman and Viggo Kann ......................... 139  
DEFINING, INTEGRATING, AND ASSESSING A PURPOSEFUL PROGRESSION OF CROSS-CURRICULAR INITIATIVES INTO A COMPUTER SCIENCE PROGRAM  
Steve Hadfield, Dino Schweitzer, David Gibson, Barry Fagin, Martin Carlisle,  
Jeff Boleng and David Bibighaus .................................................................................................... 139
Table of Contents

INTERACTIONS AMONG UNDERGRADUATE ENGINEERS: HOW CARE AND RESPECT ARE DEMONSTRATED AMONG PEERS
Janice E. Austin and Elizabeth G. Creamer ................................................................. 139

Session T4A: Special Session - Assessing Student Learning of Engineering Design
Chair: Monica E. Cardella, Purdue University
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room LaCroix C
SPECIAL SESSION - ASSESSING STUDENT LEARNING OF ENGINEERING DESIGN
Monica E Cardella, William C Oakes, Carla B Zoltowski, Robin S Adams,
Senay Purzer, Jim Borgford-Parnell, Reid Bailey and Denny Davis .................................. 140

Session T4B: Special Session - Attracting and Supporting Military Veterans in Engineering Programs
Chair: Susan M. Lord, University of San Diego
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room LaCroix D
SPECIAL SESSION - ATTRACTING AND SUPPORTING MILITARY VETERANS IN ENGINEERING PROGRAMS
Susan M. Lord, Kathleen A. Kramer, Rick T. Olson, Mary Kasarda, David Hayhurst,
Sarah Rajala, Robert Green and David Soldan ............................................................ 140

Session T4C: Informing Practice in Design and Implementation of Online Courses
Chair: Antonio Vieira de Castro, Instituto Superior de Engenharia do Porto
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room LaCroix B
TEAM FORMATION BY REGION TO IMPROVE OUTCOMES FOR DISTANCE-EDUCATION STUDENTS IN A PBL COURSE
Andrew P. Wandel ........................................................................................................ 140
IMPROVING EFFICIENCY IN ENGINEERING EDUCATION THROUGH ASYNCHRONOUS COMPUTER-BASED INSTRUCTION
Ronald D. Williams and Joanne Dugan ...................................................................... 141
WORK IN PROGRESS - DESIGN OF INTERACTIVE LEARNING OBJECTS FOR IMPROVEMENT OF DIGITAL ELECTRONICS TEACHING AND LEARNING IN HIGH SCHOOL AND DISTANCE LEARNING UNIVERSITIES
Sergio Martin, Jose Joaquin Fabuel, Elio Sancristobal, Manuel Castro and Juan Peire .......... 141
WORK IN PROGRESS - DEVELOPMENT AND PRACTICE OF NATIONAL COLLEGES OF TECHNOLOGY VERSION EMBEDDED TECHNOLOGY SKILL STANDARDS
Kazuhide Sugimoto, Kentarou Noguchi, Chikatoshi Yamada and Takahiro Yonamine .......... 141
WORK IN PROGRESS - ALTERNATIVE INTERFACES FOR E-LEARNING PLATFORMS USED IN REMOTE AREAS
Lilian Simao Oliveira, Didier Vega Oliveros, Maria Graca Pimentel and Jose Pinheiro Queiroz-Neto ................................................................. 141

Session T4D: Novel Initiatives to Learn about and Educate K-12 Teachers and Students – can you do better?
Chair: Carla A. Romney, Boston University
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room 101
WORK IN PROGRESS - STEM COLLABORATION CUBED
Stephen J. Zilora ........................................................................................................ 142
PUBLIC SCHOOL STUDENTS LEFT BEHIND: CONTRASTING THE TRENDS IN PUBLIC AND PRIVATE SCHOOL COMPUTER SCIENCE ADVANCED PLACEMENT PARTICIPATION
Kevin Freisen, Tim Sanders and Jennifer S. Kay .......................................................... 142
WORK IN PROGRESS – EXPLORING TEACHER AND STUDENT DIFFERENCES IN ASSESSMENT OF CONSTRUCTIVIST PRACTICES
Taylor Martin, Pat Ko and Stephanie Baker Peacock ..................................................... 142
WORK IN PROGRESS - MERGING SCIENCE INQUIRY AND ENGINEERING DESIGN: A SUMMER WORKSHOP SERIES FOR MIDDLE AND HIGH SCHOOL SCIENCE TEACHERS
Patricia Carlsson, Peter Hyblton, Michael Robinson, Renee Rogge, Justin Shearer,
Maarij Syed and Deborah Walter .............................................................................. 143
REINVENTING THE ENGINEERING: AN EXTRACURRICULAR PROGRAM DESIGNED TO ATTRACT NEW ENGINEERING STUDENTS
Juliana Mesquita Vidal Martinez de Lucena, Vicente Ferreira de Lucena Jr,
Claudia Magalhaes do Valle, Luiz Henrique Claro Jr. and Antonio da Fonseca de Lira ................................................................. 143

978-1-61284-469-5/11/$26.00 ©2011 IEEE
October 12 - 15, 2011, Rapid City, SD
41st ASEE/IEEE Frontiers in Education Conference
86
Session T4E: Faculty Innovations in Teaching via Technologies
Chair: Mahnas Jean Mohammadi-Aragh, Virginia Polytechnic Institute and State University
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room 102

**WORK IN PROGRESS - A SMARTPHONE APPLICATION AS A TEACHING TOOL**
IN UNDERGRADUATE NURSING EDUCATION
Jesse Vivanco, Bryan C.P. Demianyk, Robert D. McLeod and Marcia R. Friesen ........................................ 143

**DEMO PROGRAM FOR TEACHING THE CHARACTERISTICS OF LOW-PASS IIR FILTERS**
Gordana Jovanovic Dolecek ........................................ 143

**WORK IN PROGRESS - HIGHER-LEVEL-LEARNING ENHANCEMENTS TO ONLINE ASSIGNMENTS IN AN ELECTRICAL ENGINEERING LINEAR SYSTEMS COURSE**
Chen Jia and Steve Warren ........................................ 144

**AN APPLICATION FOR THE COLLABORATIVE DEVELOPMENT OF SEMANTIC CONTENT**
Miguel Rodriguez-Artacho, Celia Paola Sarango-Lapo and Dunia Ines Jara Roa ........................................ 144

**KNOWLEDGE SERVERS FOR THE CLASSROOM**
Michael Wollowski and Kevin Risden ........................................ 144

Session T4F: Student Development Outcomes via Curricular Innovations: Creativity, Teaching Preparation, Graduate School
Chair: Eric W. Johnson, Valparaiso University
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room 201/202

**FACTORS INFLUENCING THE DECISION TO ENROLL IN AN ENGINEERING PHD PROGRAM**
Hoda Baytiyeh and Mohamad K. Naja ........................................ 144

**ASSESSING CREATIVITY IN ENGINEERING STUDENTS**
Susan Amato-Henderson, Amber Kemppainen and Gretchen Hein ........................................ 144

**WORK IN PROGRESS - PUTTING THE “E” IN STEM TEACHER PREPARATION: A NEW BACHELOR OF SCIENCE DEGREE WITH AN ENGINEERING EDUCATION MAJOR**
Kenneth J. Reid and Eric T. Baumgartner ........................................ 145

**WORK IN PROGRESS – DEVELOPING A CURRICULUM TO PREPARE ENGINEERS TO PARTICIPATE IN PUBLIC POLICY**
Ida Ngambeki, Demetra Evangelou, Suresh Rao, Monica Cox and Lamis Behbehani ........................................ 145

**A SURVEY ON COMPUTER SCIENCE K-12 OUTREACH: TEACHER TRAINING PROGRAMS**
Jiangjiang Liu, Ethan Philip Hasson, Zebulun David Barnett and Peng Zhang ........................................ 145

Session T4G: Innovations in Teaching CSET Courses: Programming, Formal Languages, Computer Engineering, Software Engineering
Chair: Steve Hadfield, U.S. Air Force Academy
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room 205

**WORK IN PROGRESS – THE EVALUATION TOOLS DATABASE FOR ASSESSING ENGINEERING EDUCATION INNOVATIONS**
Michael S. Trevisan, Denny Davis, Jennifer E. LeBeau and Mo Zhang ........................................ 146

**ACTIVITY BASED TEACHING LEARNING IN FORMAL LANGUAGES AND AUTOMATA THEORY – AN EXPERIENCE**
M Vijayalakshmi and K G Karibasappa ........................................ 146

**STUDENT REFLECTIONS AS AN INFLUENCE IN THE DYNAMICS OF AN INTRODUCTORY PROGRAMMING COURSE**
Scheila Wesley Martins, Antonio Jose Mendes and Antônio Dias Figueiredo ........................................ 146

**THE USE OF CONCEPT MAPS IN COMPUTER ENGINEERING EDUCATION TO PROMOTE MEANINGFUL LEARNING, CREATIVITY AND COLLABORATION**
Inaki Calvo, Ana Arruarte, Jon A. Elorriaga, Mikel Larrañaga and Angel Conde ........................................ 146

**CONNECTING REALITY WITH THEORY - AN APPROACH FOR CREATING INTEGRATIVE INDUSTRY CASE STUDIES IN THE SOFTWARE ENGINEERING CURRICULUM**
Joseph Bolinger, Michael Herold, Rajiv Ramnath and Jayashree Ramanathan ........................................ 147

Session T4H: Factors Influencing Decisions of Women to Select and/or Continue in Engineering
Chair: Michele Miller, Michigan Technological University
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Room 206

**WORK IN PROGRESS - WHY ARE MOST UNDERREPRESENTED GROUPS EVEN MORE UNDERREPRESENTED IN A VEHICLE DESIGN PROGRAM?**
Table of Contents

Janet M. Braun

ENGINEERING FUTURES: FEMALE STUDENTS, CAREERS, AND WORK/LIFE BALANCE .......................................................... 147
Jonathan C. Hilpert, Melissa L. Carrion, Jenefer Husman and Laura Baughman ................................................................. 147

IMPLICATIONS OF BLACK GREEK LETTER MEMBERSHIP ON THE DEVELOPMENT OF THE ENGINEER OF 2020
Denise R Simmons and Julie P Martin .................................................................................................................................... 148
WORK IN PROGRESS - THE BRIDGE TO THE DOCTORATE EXPERIENCE: A REFLECTION ON BEST PRACTICES AND PROJECT OUTCOMES
Tuncay Aktosun, Ariana Arciero, Benjamin C Flores, Helmut Knaust and Cristina Villalobos .............................................. 148
WORK IN PROGRESS - GENDER IMPACTS OF RELEVANT ROBOTICS CURRICULA ON HIGH SCHOOL STUDENTS’ ENGINEERING ATTITUDES AND INTEREST
Benjamin S. Terry, Brandi N. Briggs and Stephanie Rivale ................................................................................................... 148

Session T4J: How Learners Understand CSET Concepts and Careers
Chair: James Wolf, Indiana University South Bend
Time: Thursday, October 13, 2011, 3:30 p.m. - 5:00 p.m. Civic Center Ponderosa Room
DOES AN AVATAR MOTIVATE?
Mohammad Nur Azhar Mazlan and Liz Burd .......................................................................................................................... 148
WORK IN PROGRESS - ANALYSIS OF MISCONCEPTIONS OF ENGINEERING TECHNOLOGY STUDENTS ABOUT ELECTRICAL TECHNOLOGY CONCEPTS. A MIXED METHODS STUDY
Tatiana V. Goris and Michael J Dyrenfurth .......................................................................................................................... 149
INFORMAL LEARNING IN ENGINEERING EDUCATION: WHERE WE ARE – WHERE WE NEED TO GO
Daria Kotys-Schwartz, Mary Besterfield-Sacre and Larry Shuman ......................................................................................... 149
WORK IN PROGRESS - DOES THE MARKETING OF ENGINEERING COURSES THROUGH PEDAGOGICAL DIFFERENTIATION MATTER?
Josef Rojter ........................................................................................................................................................................ 149
WORK IN PROGRESS - DOES MAINTENANCE FIRST IMPROVE STUDENT’S UNDERSTANDING AND APPRECIATION OF CLEAN CODE AND DOCUMENTATION
Maureen Doyle, Brooke Buckley, Wei Hao and James Walden ......................................................................................... 149

FRIDAY SESSIONS

Session F1A: Mini Workshop - How to Organize a Professional Development Workshop for High School CS Teachers
Chair: Joanne McGrath Cohoon, University of Virginia
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix C
MINI WORKSHOP - HOW TO ORGANIZE A PROFESSIONAL DEVELOPMENT WORKSHOP FOR HIGH SCHOOL CS TEACHERS
Joanne McGrath Cohoon and James P. Cohoon .................................................................................................................. 153

Session F1B: Mini Workshop - The CS2013 Computer Science Curriculum Guidelines Project
Chair: Joseph G. Tront, Virginia Polytechnic Institute and State University
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix D
MINI WORKSHOP - HOW TO IMPROVE TEACHING AND LEARNING: SELECTING, IMPLEMENTING AND EVALUATING DIGITAL RESOURCES IN THE ENGINEERING PATHWAY
Joseph G. Tront, Flora P. McMartin and Alice M. Agogino ........................................................................................................ 153

Session F1C: Developing and Assessing Professional Skills: Teamwork, Sketching, Communication
Chair: Holly M. Matusovich, Virginia Polytechnic Institute and State University
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room LaCroix B
WORK IN PROGRESS - EFFECTIVE TEACHING OF TECHNICAL TEAMWORK TO LARGE COHORTS OF ENGINEERING STUDENTS IN CHINA
Dan Zhang, Laurie Cuthbert and Steve Ketteridge .................................................................................................................. 153
WORK IN PROGRESS - TECHNICAL FREEHAND SKETCHING
Kenneth S. Manning and John Hampshire .......................................................................................................................... 154
A TAKE-HOME EXAM TO ASSESS PROFESSIONAL SKILLS
David Lopez, Josep Llorenç Cruz, Fermin Sanchez and Agustin Fernandez ........................................................................ 154
Table of Contents

WORK IN PROGRESS - COGNITIVE SCAFFOLDING IN CONTEMPORARY COMPUTER DOCUMENTATION
Kenneth R. Price .............................................................. 154

TEACHING TEAMWORK IN ENGINEERING AND COMPUTER SCIENCE
Robert Lingard and Shan Barkataki ...................................... 154

Session F1D: Innovations in Teaching Students Fundamental Ideas and Skills
Chair: Russ Meier, Milwaukee School of Engineering
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 101
CONDUCTING SUCCESSFUL STUDIES IN MATERIALS SCIENCE AND ENGINEERING WITH
CONSIDERATION TO A MULTIPOLICY OF STUDENT COORTHS AND DELIVERY MODES
Patrick Keleher, Arun Patil and Kai Duan .................................. 155

AN AUTOMATIC CORRECTION TOOL THAT CAN LEARN
Ferran Prados, Josep Soler, Imma Boada and Jordi Poch .................. 155

WORK IN PROGRESS – STUDENT LEARNING AS A FUNCTION OF ATTENDANCE
IN LARGE ENGINEERING CLASSES
Michael Elmore and Koenraad Gieskes .................................... 155

WORK IN PROGRESS - PROMOTING METACOGNITIVE KNOWLEDGE AND SHARED
NOTE-TAKING TO LEARN ELEC-TRIC CIRCUIT CONCEPTS THROUGH ENHANCED GUIDED NOTES
Oenardi Lawanto, Paul Schreuders, Doug Holton and James Dorward 156

AN ANALYSIS OF DC CIRCUIT THEORY CONTENT IN AN ENGINEERING TEXTBOOK:
PRESENTATION FEATURES, CONCEPTUAL CONTENT, AND USE OF ANALOGIES
Deepika Sangam, Brent K. Jesiek and Julia Thompson ..................... 156

Session F1E: Service Learning
Chair: Ramakrishnan Sundaram, Gannon University
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 102
LORSE: INTELLIGENT META-SEARCHER OF LEARNING OBJECTS OVER DISTRIBUTED
EDUCATIONAL REPOSITORIES BASED ON INTELLIGENT AGENTS
Silvia Margarita Baldiris Navarro, Jorge Luis Bacca Acosta, Adriana Nogueira Rojas, Juan Carlos Guevara Bolanos and Ramon Fabregat .................... 156

TEACHING A SERVICE LEARNING INTRODUCTORY ENGINEERING COURSE –
LESSONS LEARNED AND IMPROVEMENTS MADE
Tanja Karp ............................................................................. 157

WORK IN PROGRESS - INTERDISCIPLINARY INTERNATIONAL PREPROFESSIONAL
SERVICE WITHIN THE FIRST-YEAR ENGINEERING CURRICULUM
Kenneth J. Reid, Robin M. White and Christine L. North ....................... 157

SECURITY PLANNING FOR SMALL BUSINESSES: A SERVICE-LEARNING COURSE
Todd Burri and Susan J. Lincke ............................................. 157

FROM THE MANAGER’S PERSPECTIVE: CLASSROOM CONTRIBUTIONS TO OPEN-SOURCE PROJECTS
Edward F. Gehringer ........................................................... 157

Session F1F: Lenses for Understanding Design Education: Hands-on, Cognition, Lifelong Learning,
Complexity, Project-based
Chair: Charlie D. Cox, University of Pittsburgh
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 201/202
JUMP-STARTING A SENIOR-LEVEL CAPSTONE PROJECT THROUGH HANDS-ON LABORATORY EXERCISES
James Bluman and J. Ledlie Klosky ........................................... 158

EFFECTS OF DESIGN EDUCATION ON DESIGN COGNITION: A PRELIMINARY
STUDY OF A SOPHOMORE DESIGN COURSE
Christopher B. Williams, Yoon Suk Lee, Marie C. Paretti and John S. Gero ................................................... 158

FOSTERING LIFELONG LEARNING IN A CAPSTONE DESIGN ENVIRONMENT:
AN IMPLEMENTATION ASSESSMENT
Gonca Altuger-Genc and Constantin Chassapis ................................ 158

TEACHING CAPSTONE DESIGN: THE INFLUENCE OF PROBLEM COMPLEXITY
Julie Linsey, Cheryl Osterman and Vimal Viswanathan ..................... 158

WORK IN PROGRESS – IMPLEMENTATION OF A PROJECT-BASED LEARNING CURRICULUM
Ronald Ulseth, Dan Ewert and Bart Johnson .................................. 159
Table of Contents

Session FIG: Directions for Innovation in Engineering Laboratories: Fun, Personal, Virtual, Remote, Online
Chair: Elio Sancristobal, Spanish University for Distance Education - UNED
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m.Civic Center Room 205
WORK IN PROGRESS - INTEGRATING EDUCATIONAL ONLINE LAB PLATFORMS
AROUND THE ILAB SHARED ARCHITECTURE
Danilo Garbi Zutin and Michael E. Auer .......................................................... 159
CLASSROOM MEDIATED BY TECHNOLOGY MODEL: A NEW PROPOSAL FOR
EDUCATION TO REMOTE REGIONS OF THE AMAZON
William Roberto Malvezzi, Katia Cilene Neles Silva and Graca Bressan ............................. 159
WORK IN PROGRESS - TOOLS AND TECHNOLOGY TO IMPLEMENT A STUDENTS
PERSONAL LABORATORY
Mark Walters ........................................................................................................ 159
DESCRIPTION AN ON-LINE VIRTUAL OBSERVATORY FOR UNDERGRADUATE MODULES
BASED ON OPEN SOURCE APPLICATIONS
Alvaro Botia, Mathieu Kessler, Angel Molina-Garcia,
Manuel Jimenez-Buendia and Josefina Garcia-Leon ........................................... 160
WOW! LINEAR SYSTEMS AND SIGNAL PROCESSING IS FUN!
Maurice Felix Aburdene and Kundan Nepal .................................................................. 160

Session F1H: Using Games to Teach CSET
Chair: Stephen Jacobs, Rochester Institute of Technology
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m. Civic Center Room 206
GAME TEL: AN APPROACH TO MULTI-FORMAT AND MULTI-DEVICE ACCESSIBLE
ENGINEERING EDUCATION
Luis Anido-Rifon, Daniel Burgos, Manuel Caeiro, Javier Torrente, Manuel Fernandez,
Javier Gonzalez, Mario Manso, Manuel Ortega, Daniel Rodriguez and Baltasar Fernandez-Majon ............. 160
AN AGILE BOOT CAMP: USING A LEGO®-BASED ACTIVE GAME TO GROUND
AGILE DEVELOPMENT PRINCIPLES
Thomas D. Lynch, Michael Herold, Joe Bolinger, Shweta Deshpande, Thomas Bihari,
Jayashree Ramanathan and Rajiv Ramnath .......................................................................... 160
INTRODUCING OBJECT ORIENTED DESIGN PATTERNS THROUGH A PUZZLE-BASED
SERIOUS COMPUTER GAME
Adrian Rusu, Robert Russell, Remo Coco and Spence DiNicolantonio ........................................ 161
WORK IN PROGRESS - A SURVEY OF POPULAR GAME CREATION PLATFORMS
USED FOR COMPUTING EDUCATION
Kathlyn Doss, Valerie Juarez, Daniel Vincent, Peggy Doerschuk and Jane Liu .............................. 161
WORK IN PROGRESS - GAMES FOR LIFE WORKSHOP: OUTREACH TO MIDDLE
AND HIGH SCHOOL AGE GIRL SCOUTS
Stephen Jacobs ........................................................................................................... 161

Session F1J: Mathematical and Science Foundations for Engineering Education
Chair: Chuck Stone, Colorado School of Mines
Time: Friday, October 14, 2011, 8:00 a.m. - 9:30 a.m.Civic Center Ponderosa Room
DEVELOPING INSTRUMENTS TO ASSESS FIRST-YEAR CALCULUS AND PHYSICS MECHANICS
SKILLS NEEDED FOR A SOPHOMORE STATICS AND DYNAMICS COURSE
Kristi J Shryock, Arun R Srinivasa and Jeffrey E Froyd .................................................. 161
TABLET PC USE IN FRESHMAN MATHEMATICS CLASSES PROMOTES STEM RETENTION
Carla A. Romney ......................................................................................................... 162
MOBILE LEARNING EXPERIENCE IN THE CALCULUS CLASSROOM
Travis Kowalski, Kevin Israel, Ambu Sreedharan and Ziliang L. Zong ................................. 162
WORK IN PROGRESS - CALCULUS PLACEMENT MODELING FOR ENGINEERING STUDENT
POTENTIALLY CONTRIBUTES TO APPROPRIATE ADVISING
Qu Jin, Lorie Groll, P. K. Imbrie and Teri Reed-Rhoads .................................................. 162
WORK IN PROGRESS - ENGINEERING MATH WITH EARLY BIRD
Sabina Jeschke, Olivier Pfeiffer and Erhard Zorn ................................................................ 162
Table of Contents

Session F2A: Mini Workshop - P - 12 Engineering Education: Using Engineering Teaching Kits to Address Student Misconceptions in Science
Chair: Susan K. Donohue, University of Virginia
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room LaCroix C
MINI WORKSHOP - P - 12 ENGINEERING EDUCATION USING ENGINEERING TEACHING KITS TO ADDRESS STUDENT MISCONCEPTIONS IN SCIENCE
Susan K. Donohue and Larry G. Richards ................................................................. 163

Session F2B: Special Session - How to Improve Teaching and Learning: Selecting, Implementing and Evaluating Digital Resources in the Engineering Pathway
Chair: Richard LeBlanc, Seattle University
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room LaCroix D
SPECIAL SESSION - THE CS2013 COMPUTER SCIENCE CURRICULUM GUIDELINES PROJECT
Mehran Sahami, Steve Roach and Richard LeBlanc ..................................................... 163

Session F2C: Developing Engineering Professional Skills: Ethics, Write, Teamwork, Lifelong Learning
Chair: Mike Elmore, Binghamton University
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room LaCroix B
READING STRATEGIES AND STUDENT COMPREHENSION IN AN INTERNET ETHICS COURSE
Mark A. Holliday ............................................................................................................. 163
WORK IN PROGRESS - EARLY IMPROVEMENT IN REPORT WRITING SKILLS USING CRITQUIES
Jeffrey R. Mountain ...................................................................................................... 164
A QUANTITATIVE STUDY OF THE IMPACT OF AUTOMATED FACILITATION ON ENGINEERING STUDENT DYADIC TASK COMPLETION
Ricardo Romero, Richard Savage, Paul Figueroa and Ray Luechtefeld ............................ 164
DECISION-MAKING AND CONFLICT RESOLUTIONS SKILLS ENHANCED BY VIRTUAL FACILITATION: A QUALITATIVE STUDY
Adrienne Colbert, Angelica Guzman, Martha McQueen and Ray Luechtefeld .................... 164
FRONTIERS OF ENGINEERING: OPPORTUNITY AND CHALLENGES
Claudio da Rocha Brito and Melany M. Ciampi .......................................................... 164

Session F2D: Entrepreneurial Skills to Promote Innovation
Chair: Susan Burkett, The University of Alabama
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 101
WORK IN PROGRESS - ENHANCING THE ENTREPRENEURIAL MINDSET OF FRESHMAN ENGINEERS
Kenneth J. Reid and Daniel M. Ferguson ....................................................................... 165
PATENTS AND INTELLECTUAL PROPERTY IN ENTREPRENEURSHIP EDUCATION IN COMPUTING AT HOFSTRA UNIVERSITY
Gerda L. Kamberova, Andrea Pacelli, John Impagliazzo, Edward Currie and Simona Doboli ............................................................... 165
WORK IN PROGRESS - ENGINEERING CREATIVITY AND PROPENSITY FOR INNOVATIVE THINKING AND DESIGN IN ENGINEERING STUDENTS
Gisele Ragusa .................................................................................................................. 165
WORK IN PROGRESS - PRODUCT EVOLUTION FROM AN ENGINEERING PERSPECTIVE
David Benson .................................................................................................................. 166
WORK IN PROGRESS - ENTREPRENEURSHIP LITERACY FOR ENGINEERING STUDENTS
Nathalie Duval-Couetil, Teri Reed-Rhoads and Shiva Haghighi ...................................... 166

Session F2E: Lifelong Learning for Engineering Faculty: Teaching, Leadership, Disciplinary Content
Chair: Gonca Altuger-Genç, University of Massachusetts Lowell
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m.  Civic Center Room 102
PERSPECTIVES ON LEADERSHIP CONCEPTS BY ENGINEERING ACADEMICS
Steven Goh, Todd Hartle and Megan Brodie .................................................................... 166
IN-SERVICE TEACHING ASSISTANT TRAINING (INSTAT) FOR ENGINEERING AND COMPUTER SCIENCE GRADUATE STUDENTS IN HONG KONG: A BLENDED-LEARNING APPROACH
Kai-Pan Mark, Dimple Ramesh Thadani, David Santandreu Calonge, Cecilia F. K. Pun and P.H. Patrio Chiu ........................................... 166
WORK IN PROGRESS - THE ORGANIZATION OF A SYMPOSIUM THAT SUPPORTS FACULTY DEVELOPMENT IN THE EMBEDDED-SYSTEMS FIELD
Ariel Luttenberg, Julian Bruno, Juan Manuel Cruz, Ignacio Zaradnik and Diego Brenghi ................................................................. 167
Table of Contents

WORK IN PROGRESS - CULTIVATING AN ENGINEERING EDUCATION
COMMUNITY OF PRACTICE FOR K-12 TEACHERS
Linda L. Mellish, Wei Liu and Johannes Strobel ................................................................. 167
INTRODUCING CATS TO STEM FACULTY THROUGH GRADUATE STUDENTS
Maria Gabriela Garcia, Rebecca Bates, Jeremy Pincosy and Gregg Asher ........................................... 167

Session F2F: Factors in Student Success: Choosing Engineering, Identity, Transfer, Career Development
Chair: Alan Cheville, Oklahoma State University
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room 201/202
SUCCESS FACTORS FOR STUDENTS TRANSFERRING INTO UNDERGRADUATE ENGINEERING DEGREE PROGRAMS
Michael F. Anderson, Lance C. Perez, David Jones and Carmen Zafft ........................................... 167
WORK IN PROGRESS - IDENTITY DEVELOPMENT OF FIRST-YEAR ENGINEERING STUDENTS THROUGH A SUMMER COLLEGE PREP PROGRAM
Rachel A. Louis and Holly M. Matusovich ................................................................. 168
WORK IN PROGRESS - WHAT ATTRACTS STUDENTS TO THE STUDY OF ENGINEERING? PERCEPTIONS AND MOTIVATIONS
Josef Rojet ................................................................. 168
WORK IN PROGRESS - ENGINEERING'S GRAND CHALLENGES: AN ANALYSIS OF STUDENT VIEWPOINTS
James R Rowland ................................................................. 168
EVALUATION OF A TEN YEAR LIFE PLANNING ASSIGNMENT FOR AN ACADEMIC SCHOLARSHIP SUCCESS CLASS
Mary R. Anderson-Rowland ................................................................. 168

Session F2G: Hands-on, Cooperative, and Remote Approaches for Engineering Laboratories
Chair: Ladimer S. Nagurney, University of Hartford
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room 205
MULTI-CORE SYSTEM EDUCATION THROUGH A HANDS-ON PROJECT ON FPGAS
Xiaofang Wang ................................................................. 169
WORK IN PROGRESS - DEVELOPING A HANDS-ON COURSE ON NETWORK SCIENCE
Janne Riihijarvi and Petri Mahonen ................................................................. 169
WORK IN PROGRESS - VIRTUALIZATION AND REMOTE COMPUTING ENVIRONMENT (VRCE) TO IMPROVE LABORATORY EXPERIENCE IN AN ONLINE COMPUTER NETWORKING PROGRAM
Kuldeep Rawat, Chun P Lau and Vernon T Brown ................................................................. 169
WORK IN PROGRESS - COOPERATIVE AND COMPETITIVE PROJECTS FOR ENGAGING STUDENTS IN ADVANCED ICT SUBJECTS
Montse Pardas and Antonio Bonafonte ................................................................. 169
WORK IN PROGRESS - INTERACTIVE SIGNAL-PROCESSING LABS AND SIMULATIONS ON IOS DEVICES
Jinru Liu, Andreas Spanias, Mahesh K Banavar, Jayaraman J Thiagarajan,
Karthikeyan N Ramamurthy, Shuang Hu and Xue Zhang ................................................................. 170

Session F2H: Factors in CSET Student Success: Choosing a Major, Identity, and Social Capital
Chair: Renata A. Revelo Alonso, University of Illinois at Urbana-Champaign
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Room 206
DEVELOPING A SURVEY INSTRUMENT TO CHARACTERIZE SOCIAL CAPITAL RESOURCES IMPACTING UNDERGRADUATES’ DECISIONS TO ENTER AND PERSIST IN ENGINEERING
Julie P. Martin, Kyle Gipson and Matthew K. Miller ................................................................. 170
ENCOURAGING PARTICIPATION IN COMPUTER SCIENCE WITH CONNECT
Brandon Vargo, Cyndi Rader and Tracy Camp ................................................................. 170
EXAMINING THE IMPACT OF MATHEMATICS IDENTITY ON THE CHOICE OF ENGINEERING CAREERS FOR MALE AND FEMALE STUDENTS
Cheryl A.P. Cass, Zahra Hazari, Jennifer Cribs, Philip M. Sadler and Gerhard Sonnent ................................................................. 170
COMPARING ATTRIBUTES OF ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING AND NON-ENGINEERING STUDENTS
Michele Miller, Leonard Bohmann, Chris Van Arsdale and Benjamin Mitchell ................................................................. 171

Table of Contents

FOCUSING HIGH SCHOOL TEACHERS ON ATTRACTING DIVERSE STUDENTS TO COMPUTER SCIENCE AND ENGINEERING
James P. Cohoon, Joanne M Cohoon and Mary Lou Soffia ................................................................. 171

Session F2J: Teaching Engineering: Current Issues and Classroom Approaches
Chair: Sarah Grigg, Clemson University
Time: Friday, October 14, 2011, 10:00 a.m. - 11:30 a.m. Civic Center Ponderosa Room
TRAGEDY IN THE GULF: A CALL FOR A NEW ENGINEERING ETHIC
George D. Catalano .............................................................................................................................. 171
NEW PÉDAGOGIC CHALLENGES IN ENGINEERING EDUCATION AND THE ANSWER OF IGIP
Michael E. Auer, Dana Dobrovskova and Arthur Edwards .............................................................. 171
DÉMONSTRATING THE IMPACT OF MULTITASKING IN THE CLASSROOM
Steven Fulton, Dino Schweitzer, Lauren Scharff and Jeff Boleng ................................................... 172
AN EFFECTIVE APPROACH TO TEACHING MAGNETICALLY COUPLED ELECTRIC CIRCUITS INCLUDING IRON SATURATION IN A POWER ENGINEERING COURSE
Rene Wamkeue .................................................................................................................................. 172
INCREASING INSTRUMENTALITY WITHOUT DECREASING INSTRUCTIONAL TIME:
AN INTERVENTION FOR ENGINEERING STUDENTS
Krista Puruhito, Jenefer Husman, Jonathan C. Hilpert, Tirupalavanam Ganesh and Glenda Stump .......... 172

Session F3A: Special Session - Engineering Ethics: Toward a Definition
Chair: Craig Titus, Purdue University
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m. Civic Center Room LaCroix C
SPECIAL SESSION - ENGINEERING ETHICS: TOWARD A DEFINITION
Craig P. Titus, Carla B. Zoltowski and William C. Oakes .................................................................. 172

Session F3B: Special Session - Connecting and Expanding the Emerging Engineering Education Research (EER) and Engineering Education Innovation (EEI) Communities
Chair: Karl A. Smith, Purdue University
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m. Civic Center Room LaCroix D
SPECIAL SESSION - CONNECTING AND EXPANDING THE EMERGING ENGINEERING EDUCATION RESEARCH (EER) AND ENGINEERING EDUCATION INNOVATION (EEI) COMMUNITIES
Karl A. Smith and Ruth A. Streveler .................................................................................................. 173

Session F3C: Applying Accepted CSET Education Practices in Distance Education Contexts
Chair: Venkat N Gudivada, Marshall University
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m. Civic Center Room LaCroix B
ENABLING REMOTE ACCESS TO COMPUTER NETWORKING LABORATORIES
Carlos E. Caicedo Bastidas ................................................................................................................ 173
USING VIRTUAL WORLDS IN DISTANCE LEARNING ENVIRONMENTS
Itana Strubiener, Waleska Barbosa, Christiane Schweitzer and Carlos Alberto Kamienski .............. 173
WORK IN PROGRESS - ITEM RETRIEVAL SYSTEM IN DISTRIBUTED REPOSITORIES TO GENERATE ADAPTIVE ASSESSMENTS SUPPORTED IN ITEMS RESPONSE THEORY (IRT)
Yehiry Lucely Pulido Vega, Gloria Milena Fernandez Nieto, Silvia Margarita Baldiris Navarro and Juan Carlos Guevara Bolanos ......................................................................................... 173
A VIDEO-MESSAGE EVALUATION TOOL INTEGRATED IN THE UNED E-LEARNING PLATFORM
Rafael Pastor Vargas, Roberto Hernandez, Salvador Ros, Antonio Robles-Gomez, Agustin Caminero, Manuel Castro and Rocael Hernandez ................................................................. 174
VIRTUAL COLLABORATIVE SPACE TO SUPPORT ACTIVE LEARNING
Gerardo J Alanis-Funes, Luis Neri and Julieta Noguez ..................................................................... 174

Session F3D: Advances in Introductory Engineering Courses: Topic Modules, Rubrics, Student Career Perceptions, Diversity, Self Assessment
Chair: David Benson, Kettering University
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m. Civic Center Room 101
WORK IN PROGRESS: INTEGRATION OF TOPIC MODULES AND ORGANIZATION OF SESSION FLOW FOR THE FIRST-YEAR SEMINAR COURSE IN ENGINEERING TO MOTIVATE AND SUSTAIN STUDENT LEARNING
Ramakrishnan Sundaram ................................................................................................................ 174
Table of Contents

A FIRST COURSE IN OPERATING SYSTEMS WITH AND WITHOUT RUBRICS
Osvaldo Clua and Maria Feldgen ......................................................... 175

WORK IN PROGRESS - DIVERSITY HARPNESSING IN A GENERAL EDUCATION COURSE ON DIGITAL INFORMATION TECHNOLOGY
Christopher D Schmitz, Renata A. Revelo Alonso and Michael C. Loui ......................................................... 175

USING LOW-STAKES QUIZZING FOR STUDENT SELF-EVALUATION OF READINESS FOR EXAMS
Kirsten A Davis ............................................................................... 175

STUDENTS' PERCEPTIONS OF THE ENGINEERING PROFESSION AND IMPLICATIONS FOR INTEREST IN THE FIELD
Emily Towers, Jennifer A. Simonovich and Yevgeniya V. Zastavker ......................................................... 175

Session F3E: Trends in Instructional Technologies: Visualization, Learning Objects, Open Source
Chair: Arnold Pears, University of Uppsala, Sweden
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m.
Civic Center Room 102

VISUALIZING CONDUCTIVE AND CONVECTIVE HEAT TRANSFER USING THERMOGRAPHIC TECHNIQUES
Masoud Naghedolfazifi, Sanjeev Arora and James E. Glover ......................................................... 176

WORK IN PROGRESS - ENHANCING ON-LINE INTERACTION WITH GRAPHICAL TOOLS
William Schletter and Richard Bennett ......................................................... 176

WORK IN PROGRESS - LIVE PROGRAMMING LEARNING OBJECTS REPOSITORY
Kai Oian, Lixin Tao, Wanjun Hu and Richard Kline ......................................................... 176

WORK IN PROGRESS - ENHANCING INTERACTIVE GEOMETRY SYSTEMS WITH INTELLIGENT TUTORING FEATURES
Danilo Leite Dalmon, Seiji Isotani, Anarosa Alves Franco Brandao and Leonidas de Oliveira Brandao ......................................................... 176

BUILDING A MEDICAL LEARNING METHODOLOGY BASED ON OPEN SOURCE TECHNOLOGIES
Antonio Vieira de Castro, Carlos Vaz Carvalho and Eurico Manuel Carrapatoso ......................................................... 176

Session F3F: Improving Professional Skills through Undergraduate Research Experiences
Chair: Teresa Larkin, American University
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m.
Civic Center Room 201/202

WORK IN PROGRESS - UNDERGRADUATE RESEARCH COURSE DESIGN AT KFUPM, A BASIC STARTING EXPERIENCE
Amar Khoukhi ............................................................................... 177

WORK IN PROGRESS - INTERVENING TO IMPROVE THE DISSERTATION OF FINAL YEAR ENGINEERING RESEARCH PROJECTS
Steven Goh and Harry Ku ............................................................................... 177

WORK IN PROGRESS - THE J-DSP/ELSE SOFTWARE FOR ANALYZING EARTH SYSTEMS SIGNALS
Linda Hinnov, Karthikeyan Natesan Ramamurthy and Andreas Spanias ......................................................... 177

A NOVEL REU PROGRAM TO DEVELOP THE SKILLS OF THE ENGINEER OF 2020
Michael West, William Cross, Stuart Kellogg and Alfred Boysen ......................................................... 177

WORK IN PROGRESS - A HEALTH INFORMATION TECHNOLOGY CENTRALIZED WEB APPLICATION
Ronald J. Glotzbach, Laura A Kocur, James L Mohler and Carlos R Morales ......................................................... 178

Session F3G: Improving Student Learning in Introductory Programming Courses
Chair: John C. Lusth, University of Alabama
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m.
Civic Center Room 205

IMPROVING PROGRAMMING EDUCATION IN TANZANIA: TEACHERS' AND STUDENTS’ PERCEPTIONS
Mikko Apiola, Matti Tedre and Josephat O. Oroma ......................................................... 178

COMPARING THE COLLABORATIVE AND INDEPENDENT VIEWING OF PROGRAM VISUALIZATIONS
Teemu Rajala, Erkki Kaila, Johannes Holvitie, Riku Haavisto, Mikko-Jussi Laakso and Tapio Salakoski ......................................................... 178

IDENTIFYING COGNITIVE ABILITIES TO IMPROVE CSI OUTCOME
Ana Paula Ambrosio, Fabio Moreira Costa, Leandro Almeida, Amanda Franco and Joaquim Macedo ......................................................... 178

WORK IN PROGRESS - COURSES DEDICATED TO THE DEVELOPMENT OF LOGICAL AND ALGORITHMIC THINKING
Orna Muller and Amir Rubinstein ......................................................... 179

Table of Contents

WORK IN PROGRESS - WEB PENETRATION TESTING: EFFECTIVENESS OF STUDENT LEARNING IN WEB APPLICATION SECURITY
Hwee-Joo Kam and Joshua J. Pauli ................................................................. 179

Session F3H: Themes in Improving Engineering Courses: Collaboration, Frequent Assessment, Studio Environments, Deep Insight
Chair: Robert O'Connell, University of Missouri
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m.  Civic Center Room 206

RESULTS OF THE COOPERATIVE LEARNING PROGRAM AT TELEMARK UNIVERSITY COLLEGE, NORWAY
Trond Clausen and Svein Thore Hagen ............................................................ 179

DEVELOPING AN INTERMEDIATE EMBEDDED-SYSTEMS COURSE WITH AN EMPHASIS ON COLLABORATION
Andres Djordjian, Ariel Lutenberg, Juan Manuel Cruz, Sebastian Garcia, Pedro Martos and Pablo Gomez ... 179

UNDERSTANDING A STUDIO ENVIRONMENT: A COMPLEX SYSTEM APPROACH TO A COMMUNITY OF PRACTICE
Ashley Thompson, Brook Sattler and Jennifer Turns ........................................... 180

THAYER QUIZ METHOD: REPLACING HOMEWORK WITH FREQUENT QUIZZES IN ENGINEERING CLASSES
Kenneth Viall, Christopher Lowrance and Scott Bronikowski .................................. 180

TEACHING DEFLECTION OF STEPPED SHAFTS: CASTIGLIANO'S THEOREM, DUMMY LOADS, HEAVISIDE STEP FUNCTIONS AND NUMERICAL INTEGRATION
E. M. Odom and C. J. Egelhoff ......................................................................... 180

Session F3J: Reaching Beyond Traditional Boundaries and Characterizations of CSET Students
Chair: Steven P Fulton, U.S. Air Force Academy
Time: Friday, October 14, 2011, 2:30 p.m. - 4:00 p.m.  Civic Center Ponderosa Room

WORK IN PROGRESS - STREAMLINING PATHWAYS TO ENGINEERING DEGREES FOR MILITARY VETERANS
David L. Soldan, Noel N. Schulz, Don M. Gruenbacher, Blythe Marlow Vogt and Rekha Natarajan ............ 180

WORK IN PROGRESS - TEACHING ENGINEERING CONCEPTS TO LIBERAL ARTS STUDENTS
Polly R. Piergianni ......................................................................................... 181

TEACHING COMPUTATIONAL THINKING TO NON-COMPUTING MAJORS USING SPREADSHEET FUNCTIONS
Kuo-Chuan (Martin) Yeh, Ying Xie and Fengfeng Ke ............................................. 181

WORK IN PROGRESS - INTERPRETING ELEMENTARY STUDENTS’ ADVANCED CONCEPTIONS OF ENGINEERING FROM THE DRAW-AN-ENGINEER TEST
Heidi A. Diefes-Dux and Brenda M. Capobianco ............................................... 181

WORK IN PROGRESS - A NEW LABORATORY PROJECT IN A REQUIRED ELECTRICAL ENGINEERING COURSE FOR NON-MAJORS: DESIGN, SURVEY, AND ANALYSIS OF STUDENT FEEDBACK
Hongwei Liao and Alexander Ganago ............................................................. 181

Session F4A: Mini Workshop - Exploration of the Ethical Development of Engineering Undergraduates
Chair: Donald D. Carpenter, Lawrence Tech University
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room LaCroix C

MINI WORKSHOP - EXPLORATION OF THE ETHICAL DEVELOPMENT OF ENGINEERING UNDERGRADUATES
Donald D. Carpenter, Janel Sutkus, Cynthia Finelli and Trevor Harding .................. 182

Session F4B: Panel - Tales from the Field - Cross-College Curriculum Development
Chair: Ruth A. Streveler, Purdue University
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room LaCroix D

PANEL - TALES FROM THE FIELD - CROSS-COLLEGE CURRICULUM DEVELOPMENT
Ruth A. Streveler, Tim Riordan, Odsema Dalrymple, Eric Johnson and Stuart Kellog ..................... 182

Session F4C: Virtual Learning Environments: Assessment, Collaboration, Community
Chair: Raghu Raman, Amrita University
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room LaCroix B

WORK IN PROGRESS - THE IMPACT OF TIME ON BUILDING COMMUNITY IN AN ALN
Timothy J. Ellis .............................................................................................. 182
Table of Contents

AUTOMATIC ASSESSMENT FOR THE E-LEARNING OF THE NETWORK SERVICES
IN THE CONTEXT OF THE EHEA
Antonio Robles-Gomez, Llanos Tobarra, Salvador Ros, Roberto Hernandez, 
Agustin C. Caminero and Rafael Pastor .............................................................................. 182

STUDENT EMPOWERMENT IN HIGHER EDUCATION THROUGH PARTICIPATORY EVALUATION
Dina Soeiro, Antonio Dias Figueiredo and Joaquim Armando Ferreira ........................................ 183

APPLYING A ASSESSMENT TOOL IN DISTANCE LEARNING EDUCATION
Elio Sancristobal, Nuria Oliva, Juan J. Aguado, Juan V. Miguez, Sergio Martín, Gabriel Diaz, 
Jose Carpio and Manuel Castro ........................................................................................................ 183

IMPROVING COOPERATION IN VIRTUAL LEARNING ENVIRONMENTS USING 
MULTI-AGENT SYSTEMS AND AIML
Marcio Alencar and Jose Magalhaes Netto ....................................................................................... 183

Session F4D: Pre-College Outreach through Projects, and Multi-Institution Collaborations
Chair: Jack Mottley, University of Rochester
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room 101

MULTI-UNIVERSITY PRECOLLEGE OUTREACH FROM A RENEWABLE ENERGY 
FOCUSED ENGINEERING RESEARCH CENTER
Keith E. Holbert, Kristen Molyneaux, Lisa L. Grable and Patricia Dixon ........................................ 183

IMPLEMENTING NANOTECHNOLOGY EDUCATION IN THE HIGH SCHOOL CLASSROOM 
Ben Pelleg, Manuel Figueroa, Matthew VanKouwenberg, Adam Fontecchio and Eli Fromm ............ 184

WORK IN PROGRESS - USING A “CIGAR BOX” GUITAR TO TEACH WAVES AND 
SOUND IN A HIGH SCHOOL PHYSICS PROGRAM
Kelly Crittenden, Heath E Tims, Krystal Corbett, David Hall and Michael Swanbom ............................ 184

SET UP AND DELIVERY OF ELECTRICAL AND COMPUTER ENGINEERING PROJECTS AT 
UNDERGRADUATE ENGINEERING UNIVERSITIES FOR OUTREACH AND PARTNERSHIP 
WITH K-12 STEM SCHOOLS
Ramakrishnan Sundaram ..................................................................................................................... 184

WORK IN PROGRESS - STUDENT TASK INTERPRETATION, DESIGN PLANNING, AND COGNITIVE 
STRATEGIES IN ENGINEERING DESIGN PROJECT: AN EXPLORATORY STUDY FOR GRADES 9-12
Oenardi Lawanto ................................................................................................................................. 184

Session F4E: Issues Using Instructional Technologies to Facilitate Learning: Usability, Feedback, 
Context, Personalization, Development Time
Chair: Asad Azemi, Penn State University
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room 102

WORK IN PROGRESS - OPEN SOURCE USABILITY EVALUATION: THE CASE OF MOODLE
Hoda Baytiyeh ........................................................................................................................................... 185

WORK IN PROGRESS - EVALUATION AND FEEDBACK FOR WEB PROGRAMMING CURRICULUM
Ronald J. Glotzbach and Laura A Kocur ................................................................................................. 185

MODEL-DRIVEN DEVELOPMENT OF LEARNING OBJECTS
Marco Aurelio Graciottu Silva, Ellen Francine Barbosa and Jose Carlos Maldonado .......................... 185

CONTEXT-AWARE RECOMMENDATION ALGORITHMS FOR THE PERCEPOLIS PERSONALIZED 
EDUCATION PLATFORM
Amir Bahmani, Sahra Sedigh and Ali R. Hurson .................................................................................... 186

WORK IN PROGRESS - VIRTUAL FACILITATION AND PROCEDURAL KNOWLEDGE EDUCATION 
Ray Luechtefeld and Steve E. Watkins ................................................................................................. 186

Session F4F: Facilitating Development of Engineering Design Knowledge and Skills
Chair: Trond Clausen, Telemark University College
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m.  Civic Center Room 201/202

WORK IN PROGRESS - AN INNOVATIVE APPROACH TO PROBLEM IDENTIFICATION 
AND DESIGN FOR CAPSTONE PROJECTS
M Vijayalakshmi, Padmeshree D Desai, Gopalkrishna H Joshi and Karuna C Gull ................................ 186

COMPARING DESIGN COGNITION OF UNDERGRADUATE ENGINEERING STUDENTS 
AND HIGH SCHOOL PRE-ENGINEERING STUDENTS
Matthew D Lammi and John S. Gero ..................................................................................................... 186
Table of Contents

WORK IN PROGRESS - AN AGILE EMBEDDED SYSTEMS DESIGN CAPSTONE COURSE
Antonio F. Mondragon-Torres, Alexander Kozitsky, Clifford Bundick, Edward Mc Kenna Jr,
Eric Alley, Matthew Lloyd, Peter Stanley and Roger Lane ...................................................... 187

WORK IN PROGRESS - COMPUTER SCIENCE PERSPECTIVES ON INTEGRATION
WITH HUMAN-CENTERED DESIGN
Michael Herold, Aaron Ganci, Bruno Ribeiro, Rajiv Ramnath and R. Brian Stone .................. 187

WORK IN PROGRESS – DEVELOPMENT OF A LINEAR INTEGRATED CIRCUITS COURSE
FOCUSED ON DESIGN UNDER REALISTIC TRADE-OFF CONDITIONS
Ariel Lutenberg, Mariano Garcia Inza, Sebastian Carbonetto, Jose Lipovetzky,
Gabriel Gabian, Hernan Romero and Daniel Musciano ......................................................... 187

Session F4G: Learning Programming Language Concepts and Methodologies: Consistent Challenges, New Approaches
Chair: Inmaculada Plaza, University of Zaragoza
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m. Civic Center Room 205

FACING COMPUTER SCIENCE MISCONCEPTIONS: AN INTRODUCTORY COURSE
Siegfried Rouvrais and Ioannis Kanellos .................................................................................. 187

NEW TOOLS AND METHODOLOGIES FOR PROGRAMMING LANGUAGES LEARNING
USING THE SCRIBBLER: ROBOT AND ALICE
Sebastian Londono and Ana Maria Orozco ________________________________ 188

EXPERIENCES WITH CS2 AND DATA STRUCTURES IN THE 100 PROBLEMS FORMAT
Nicholas Kraft, Xiaoyan Hong, John C. Lusht and Debra McCallum ...................................... 188

A CLASS RECORD AND REVIEWING SYSTEM DESIGNED TO PROMOTE PROGRAMMING LEARNING
Alvaro Santos, Anabela Gomes and Antonio Jose Mendes ....................................................... 188

WORK IN PROGRESS - USING GRAPHICAL PROGRAMMING TO CONTEXTUALIZE
A CONVENTIONAL PROGRAMMING COURSE
Ali Jalal-Kamali and Eric Freudenthal .................................................................................. 188

Session F4H: Broadening Participation in STEM: Perceptions, Recruitment, Retention, Success
Chair: Ingrid St. Omer, University of Kentucky
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m. Civic Center Room 206

REPRESENTATION OF WOMEN AND PERCEPTIONS OF SUPPORT IN ENGINEERING
Elizabeth G. Creamer ............................................................................................................. 189

STAIRSTEP: AN INTERDISCIPLINARY PROGRAM FOR RETENTION AND OUTREACH IN STEM
Peggy Doerschuk, Cristian Bahrim, Jennifer Daniel, Joseph Kruger,
Judith Mann and Christopher Martin ..................................................................................... 189

ROBOTS, RECRUITMENT, AND RETENTION: BROADENING PARTICIPATION THROUGH CS0
Laura M. Grabowski and Pearl Brazier .................................................................................. 189

A GENDER ANALYSIS OF STUDENT LEARNING IN PHYSICS
Teresa L. Larkin ..................................................................................................................... 189

PROBLEMATIZATIONS OF WOMEN’S UNDERREPRESENTATION: COMPARING
EDUCATOR INTERVIEWS WITH THE LITERATURE
Kacey Beddoes ..................................................................................................................... 190

Session F4J: Sustainability
Chair: Jenefer Husman, Arizona State University
Time: Friday, October 14, 2011, 4:30 p.m. - 6:00 p.m. Civic Center Ponderosa Room

INTEGRATING SUSTAINABILITY TECHNOLOGIES INTO CONSTRUCTION EDUCATION CURRICULUM
Daniel Davis .......................................................................................................................... 190

ACTIVITIES TO INFUSE SUSTAINABILITY AND RENEWABLE ENERGY CONCEPTS IN
ELECTRICAL AND COMPUTER ENGINEERING
Anil Pahwa, William B. Kuhn, Ruth Douglas Miller, Andrew Rys, Chris Eldridge,
Scott Geier, Jeff Schuler, Matt Morley, Ian Sobering and Jonathan Stacks ......................... 190

WORK IN PROGRESS - SUSTAINABILITY AND SENIOR DESIGN AT THE UNIVERSITY
OF SAN DIEGO
Susan M. Lord and Charles N. Pateros .................................................................................. 191
Table of Contents

WORK IN PROGRESS - WEAVING THREADS OF SUSTAINABILITY INTO THE FABRIC OF THE MECHANICAL ENGINEERING CURRICULUM
Michele Miller, John Gershenson, Chuck Margraves, Ibrahim Miskioglu and Gordon Parker ............................................ 191

INTRODUCING SUSTAINABILITY CONCEPTS IN LOWER DIVISION ENGINEERING CORE COURSES
Juneseok Lee, Nicole Okamoto, Richard Chung and Thalia Anagnos .............................................................. 191

SATURDAY SESSIONS

Session S1A: Mini Workshop - Real World Engineering Projects: Discovery-Based Curriculum Modules for First-Year Students
Chair: Stephen Williams, Milwaukee School of Engineering
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  Holiday Inn Room Salon D
MINI WORKSHOP - REAL WORLD ENGINEERING PROJECTS: DISCOVERY-BASED CURRICULUM MODULES FOR FIRST-YEAR STUDENTS
Stephen Williams, Masoud Agah, Luiz DaSilva, Kamyar Dezhgosha, Allen MacKenzie, Nicky Mostert-Pippens, Sanjay Raman and Javier Resano ........................................................................................................... 195

Session S1B: Satisfying Accreditation Expectations
Chair: Chuck Stone, Colorado School of Mines
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  Holiday Inn Room Salon E
EFFECTIVE EVALUATION STRATEGIES TO MEET GLOBAL ACCREDITATION REQUIREMENTS
Ronald R. DeLyser ................................................................................................................................. 195

Session S1C: Successful Careers After Graduation: What is Needed? How are programs evolving to develop expected competencies?
Chair: Hamid Khan, Our Lady of The Lake University
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  Holiday Inn Room Salon A
PRACTITIONER ENGINEERS PERCEPTIONS FOR A SUCCESSFUL EARLY EMPLOYMENT CAREER
Hoda Baytiiyeh and Mohamad K. Naja ........................................................................................................ 196

Session S1D: What engineering interests and engineering skills can be nurtured through outreach programs?
Chair: Bernardo Leon de la Barra, University of Tasmania
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  Holiday Inn Room Salon F
WORK IN PROGRESS - REAL WORLD ENGINEERING PROJECTS: DEVELOPING INDUSTRY ORIENTED COURSES
Asa Cajander, Mats Daniels and Brian R von Konsky .................................................................................. 197

41st ASEE/IEEE Frontiers in Education Conference
# Table of Contents

**WORK IN PROGRESS - INTRODUCING SOLAR ENERGY ENGINEERING IN AN AUSTRALIAN MIDDLE ELEMENTARY SCHOOL**  
Bernardo Leon de la Barra and Karen L. Wilson ................................................................. 198

**WORK IN PROGRESS - THE ROD-SPRING APPROXIMATION: AN INTUITIVE APPROACH TO THE BEST-FIT LEAST-SQUARES LINEAR APPROXIMATION**  
Steven Gutstein, Eric Freudenthal, Ali Jamal-Kamali, Vladik Kreinovich and David Morgenthaler .......... 198

**WORK IN PROGRESS - COMPUTING FOR MIDDLE-SCHOOL STUDENTS: THE EXPERIENCE OF TEACHING COMPUTERS FOR 7TH GRADE STUDENTS**  
Simona Doboli ...................................................................................................................... 198

**AFFORDABLE K-12 ROBOTICS PROGRAMS**  
George (Mangnan) Tan, Eric Levy, Richard Gale, Tanja Karp and Alan Barhorst .................................. 199

## Session S1E: Mobile and Authoring Instructional Technologies

Chair: Chiu Choi, University of North Florida  
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  
**Holiday Inn Montana Room**

**SHERPA: A MOBILE APPLICATION FOR STUDENTS AND EDUCATORS IN THE CLASSROOM**  
Dino Schweitzer and Scott Teel .............................................................................................. 199

**WORK IN PROGRESS - AN IMMERSION COURSE CONCENTRATION IN MOBILE WEB COMPUTING**  
Carol J Romanowski, Rajendra K Raj and Minseok Kwon ......................................................... 199

**TIMELINE-BASED AUTHORIZING TOOL FOR E-TEXTBOOK: BRINGING THE “MIND-MAPPED LEARNING MODEL”**  
HeeJeong Lee, TeongJoo Ong and Christopher Hugh Messom ...................................................... 199

**WORK IN PROGRESS - THE ICOLLABORATE MSE PROJECT**  
Kathleen L. Kitto and Debra Jusak .......................................................................................... 199

**WORK IN PROGRESS - A BLENDED MOBILE LEARNING CONTEXT ORIENTED MODEL APPLIED TO AN INFORMATION SYSTEMS UNDERGRADUATE DEGREE CURRICULUM**  
Fernando Moreira and Maria João Ferreira .................................................................................. 200

## Session S1F: Stories about Engineering Students: Interest, Success, Career Transitions

Chair: Stephanie Adams, Virginia Polytechnic Institute and State University  
Time: Saturday, October 15, 2011, 9:30 a.m. - 10:30 a.m.  
**Holiday Inn Private Dining Room**

**WORK IN PROGRESS - ENGINEERING PATHWAYS STUDY: THE COLLEGE-CAREER TRANSITION**  
Sherri Sheppard, Holly M. Matusovich, Cindy Atman, Ruth A. Streveler and Ronald L. Miller .............. 200

**WORK IN PROGRESS - THE AGE OF APATHY: REIGNITING ENGINEERING EDUCATING**  
Elif Eda Miskioglu .................................................................................................................. 199

**WORK IN PROGRESS - ASLEEP IN CLASS ARE THE SCHEDULES OF COLLEGE STUDENTS HAMPERING THEIR ABILITY TO LEARN?**  
Maurice Baynard and Donald McEachron .................................................................................... 200

**IT’S NOT WHAT YOU THINK: A THEORY FOR UNDERSTANDING THE LACK OF INTEREST AMONG DOMESTIC STUDENTS IN THE ENGINEERING PHD**  
Michelle C. Howell Smith, Amanda L. Garrett, Ellen Weissinger and Namas Chandra ......................... 201

**WORK IN PROGRESS - PREPARATION CREATING EFFECTIVE FACULTY OF ENGINEERING: A TECHNOLOGICAL LITERACY APPROACH**  
Mani Mina, Diane Rover and Mack C Shelley .............................................................................. 201

## Session S1G: Technologies and Quality Assurances: Approaches to Improving Engineering Education across the World

Chair: Claudio da Rocha Brito, Science and Education Research Council  
Time: Saturday, October 15, 2011, 10:30 a.m. - 12:30 p.m.  
**Holiday Inn Hammons Room**

**USE OF LMS FUNCTIONALITIES IN ENGINEERING EDUCATION**  
Martin Llamas-Nival, Manuel Caerio-Rodriguez, Manuel Castro, Inmaculada Plaza-Garcia and Edmundo Tovar-Caro ................................................................. 201

**WORK IN PROGRESS – EXPLOITING VIDEOCONFERENCING POSSIBILITIES TO PROMOTE THE EUROPEAN CONVERGENCE PROCESS**  
Enrique Barra, Sandra Aguirre and Juan Quemada ........................................................................ 202

**LEADING CHANGE IN THE INTERNAL QUALITY ASSURANCE SYSTEM IMPLANTATION OF A EUROPEAN TECHNICAL UNIVERSITY**  
Edmundo Tovar, Gonzalo Carrillo and Jose Domingo Carrillo ........................................................ 202
Table of Contents

GIFT YOUNG ENGINEERS: AN EXTRA-CURRICULAR INITIATIVE FOR UPDATING COMPUTER AND ELECTRICAL ENGINEERING COURSES
Vicente Ferreira de Lucena Jr, Jose Pinheiro de Queiroz Neto, Joao Edgar Chaves Filho, Waldir Sabino da Silva Junior and Lucas Carvalho Cordeiro ................................................................. 202

TEACHING MOBILE SOLUTION DEVELOPMENT IN A GLOBAL CONTEXT: COMPARING SOLUTIONS PROPOSED BY STUDENTS IN THE DEVELOPED AND DEVELOPING WORLD
Christelle Scharff, Jean-Marie Preira, Roslyn Kay and Serene Hang Su ......................................................... 202

Session S1H: Promoting Female and Minority Engineering Students
Chair: Jim Borgford-Parnell, University of Washington
Time: Saturday, October 15, 2011, 8:00 a.m. - 9:30 a.m.  Holiday Inn Room Salon BC
CONFLICTED IDENTITIES AND SEXISM IN COMPUTING GRADUATE PROGRAMS
Joanne McGrath Cohoon, Monica Nable and Paul Boucher ................................................................. 203
ENGINEERING SELF-EFFICACY OF WOMEN ENGINEERING STUDENTS AT URBAN VS. RURAL UNIVERSITIES
K.L. Jordan, Sheryl Sorby, Susan Amato-Henderson and Tammy Haut Donahue ........................................ 203
WORK IN PROGRESS - ASSESSING AND EVALUATING MENTORSHIP PROGRAMS AFFECTING STUDENTS RETENTION AT THE UNIVERSITY OF MARYLAND BALTIMORE COUNTY IN MECHANICAL ENGINEERING
Jamie Gurganus and Anne Spence ................................................................. 203
WORK IN PROGRESS - MODELING ACADEMIC SUCCESS OF FEMALE AND MINORITY ENGINEERING STUDENTS USING THE STUDENT ATTITUINAL SUCCESS INSTRUMENT AND PRE-COLLEGE FACTORS
Joe J. Lin, P.K. Imbrie, Kenneth J. Reid and Junqiu Wang ................................................................. 203
WORK IN PROGRESS - REPORTING S-STEM RETENTION: NEW DIVERSITY VS. SUPPORTING EXISTING DIVERSITY
Mary Virnoche and Elizabeth A. Eschenbach ................................................................. 204

Session S2A: Mini Workshop - Aligning Content, Assessment, and Pedagogy in the Design of Engineering Courses
Chair: Karl A. Smith, Purdue University
Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m.  Holiday Inn Room Salon D
MINI WORKSHOP - ALIGNING CONTENT, ASSESSMENT, AND PEDAGOGY IN THE DESIGN OF ENGINEERING COURSES
Ruth A Streveler, Karl A Smith and Mary K Pilotte ................................................................. 204

Session S2B: Creativity in the Classroom
Chair: Gisele Ragusa, University of Southern California
Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m.  Holiday Inn Room Salon E
WORK IN PROGRESS - STRUCTURAL ART: ENCOURAGING STUDENT CREATIVITY AND ARTISTIC EXPRESSION
Andrew T. Rose ................................................................. 204
A SOCIAL-BASED META-MULTIDISCIPLINARY FRAMEWORK TO MOTIVATE THE CREATION OF A NEW GENERATION OF ELECTRONICS 2.0 SYSTEMS
Cesar Cardenas ................................................................. 204
DEVELOPING THE NEXT GENERATION OF ENTREPRENEURS
Edward H Currie, Simona Doboli and Gerda L Kamberova ................................................................. 205
ASSESSING CREATIVITY PRACTICES IN DESIGN
Guy-Alain Amoussou, Michael Porter and Steve J. Steinberg ................................................................. 205
WORK IN PROGRESS – UNDERGRADUATES AND INTELLECTUAL PROPERTY: TRENDS, POLICIES, AND PRACTICES
Nathalie Duval-Couetil and Brandon Barrett ................................................................. 205

Session S2C: Professional Skills Beyond Teamwork and Communication
Chair: Odesma Dalrymple, Arizona State University at the Polytechnic campus
Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m.  Holiday Inn Room Salon A
ENGINEERING POSITIVE ORGANIZATIONAL BEHAVIOR AND MANAGING THE PSYCHOLOGICAL CAPITAL FOR LEARNING EFFECTIVENESS
Hamid Khan ................................................................. 205
## Table of Contents

**WORK IN PROGRESS - ASSESSING INFORMATION LITERACY IN CIVIL ENGINEERING**
Hudson Jackson, Nathan Rumsey, Patricia Daragan and Sharon Zelmanowicz .......................................................... 206

**INTRODUCING “SUSTAINABILITY AND SOCIAL COMMITMENT” SKILLS IN AN ENGINEERING DEGREE**
David Lopez, Fermin Sanchez, Jordi Garcia, Marc Alier, Jordi Piguillem and Martha Velasco .............................................. 206

**WORK IN PROGRESS - A GRAND CHALLENGE LEADERSHIP COURSE FOR ENGINEERING STUDENTS**
J. Elaine Seat, Christopher D. Pionke and J. Roger Parsons ...................................................................................... 206

**SYNERGIES AND OPPORTUNITIES BETWEEN ENGINEERING AND LAW**
Ladimer S. Nagurney .................................................................................................................................................... 206

### Session S2D: Assessing and Developing Engineering Attitudes and Skills in K-12

Chair: Larry G. Richards, University of Virginia

Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m. Holiday Inn Room Salon F

**AN EXPLORATORY EVALUATION OF AN ELEMENTARY MATHEMATICS AND SCIENCE ATTITUDE SURVEY**
Tonya Lauriski-Karriker, Anna Forssen and Barbara M. Moskal .................................................................................. 207

**WORK IN PROGRESS - SOIL WATERING SYSTEMS AS TEACHING MATERIALS FOR TECHNOLOGY EDUCATION IN JUNIOR HIGH SCHOOLS**
Yasumasa Oomori, Kan Nagai, Naoya Kawasaki and Hideo Nagumo ........................................................................ 207

**WORK IN PROGRESS - APPLICATION OF THE BOE-BOT IN TEACHING K12 ELECTRICITY FUNDAMENTALS**
Heath E. Tims, Krystal Corbett, Galen Turner, David Hall and Davis Harbour ............................................................... 207

**MIDDLE SCHOOL GIRLS’ PERCEPTIONS OF ENGINEERS BEFORE AND AFTER A FEMALE ONLY SUMMER ENRICHMENT PROGRAM**
Linda S. Hirsch, Suzanne Berliner-Heyman, Rosa Cano, Howard Kimmel and John Carpinelli ......................................... 207

### Session S2E: Visualizing Future Instructional Technologies

Chair: Kenneth S. Manning, SUNY Adirondack

Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m. Holiday Inn Montana Room

**WEB EDITING MODULE FOR TAGGING METADATA OF THE FEDORA COMMONS REPOSITORY LEARNING OBJECTS UNDER DRD AND LOM STANDARDS**
Silvia Margarita Baldiris Navarro, Cecilia Avila Garzon, Paola Andrea Rivera Gonzalez, Juan Carlos Guevara Bolanos and Ramon Fabregat ........................................................................................................... 208

**PREPARING FOR FUTURE DATA CENTER PROFESSIONALS: INTEGRATING STORAGE TECHNOLOGY INTO THE COMPUTER INFORMATION TECHNOLOGY CURRICULUM**
Wei Hao, Hetal Jasani and Traian Marius Truta ................................................................................................................ 208

**EVALUATION OF A NATURAL SKETCH INTERFACE FOR TRUSS FBDS AND ANALYSIS**
Olufunmilola Atilola, Martin Field, Erin McTigue, Tracy Hammond and Julie Linsey .......................................................... 208

**WORK IN PROGRESS - COLLABORATIVE AND REFLECTIVE LEARNING IN ENGINEERING PROGRAMS**
Neelam Soundarajan .................................................................................................................................................. 208

**AN EXPERIMENTAL NEXOS LABORATORY USING VIRTUAL XINU**
Paul Ruth and Dennis Brylow ........................................................................................................................................ 209

### Session S2F: Novel Contexts for Developing Engineering Design Competencies

Chair: Amalia Rusu, Fairfield University

Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m. Holiday Inn Private Dining Room

**INTEGRATING DEVELOPMENTAL INSTRUCTION IN SUSTAINABILITY CONTEXTS INTO AN UNDERGRADUATE ENGINEERING DESIGN CURRICULUM: LEVEL TWO**
Eric C. Pappas and Olga Pierrakos ................................................................................................................................. 209

**REFERENCE DESIGNS FOR EMBEDDED CONTROLS**
Chiu H. Choi ................................................................................................................................................................. 209

**UTILIZING UNIVERSITY RESEARCH AND UPPER-DIVISION COURSE MATERIAL FOR AN ENHANCED FIRST-YEAR DESIGN EXPERIENCE**
Amber Kemppainen, Gretchen Hein and Amy Hamlin ........................................................................................................ 209

**DISTRIBUTED SYSTEMS DESIGN SUPPORTED BY REFLECTIVE WRITING AND CATS**
Maria Feldgen and Osvaldo Clua ..................................................................................................................................... 210

**WORK IN PROGRESS - DIRECT ASSESSMENT OF COURSE OUTCOMES IN A COMPUTER MODELING AND SIMULATION CLASS**
Keith Garfield ............................................................................................................................................................... 210
# Table of Contents

**Session S2G: Introductory Computer Science Courses**  
Chair: Melany M. Ciampi, Safety, Health and Environment Research Organization  
Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m.  
Holiday Inn Hammons Room  

- **TEACHING COMPUTER SYSTEMS THROUGH COMMON PRINCIPLES**  
  - Mark A. Holliday .................................................. 210  
- **WORK IN PROGRESS - INTEGRATING MATHEMATICAL MODELING WITH COMPUTER VISUALIZATION TO IMPROVE STUDENTS’ PROBLEM SOLVING IN AN INTRODUCTORY ENGINEERING COURSE**  
  - Ning Fang .............................................................. 210  
- **NEW APPROACH TO TEACHING AN INTRODUCTORY COMPUTER SCIENCE COURSE**  
  - Asad Azemi and Nannette D'Imperio .................................. 211  
- **WORK IN PROGRESS – THE IMPACT OF INTEGRATING FIRST-YEAR STUDENTS INTO THE BROADER CURRICULUM**  
  - Robert Elliott and Nancy Evans .................................... 211  
- **USING THE MATLAB-BASED IROBOT CREATE SIMULATOR TO ENGAGE INTRODUCTORY COMPUTER PROGRAMMING STUDENTS IN PROGRAM DEVELOPMENT AND OBSERVING COMPUTATIONAL ERRORS**  
  - K.-Y. Daisy Fan and Kathryn Conway Dimiduk ...................... 211

**Session S2H: How can expected Scientific Foundations for Student Learning be Nurtured?**  
Chair: Gul Afshan, Milwaukee School of Engineering  
Time: Saturday, October 15, 2011, 10:00 a.m. - 11:30 a.m.  
Holiday Inn Room Salon BC  

- **STUDENT DIFFICULTIES WITH BASIC CONCEPTS IN INTRODUCTORY MATERIALS SCIENCE ENGINEERING**  
  - Andrew Frank Heckler and Rebecca Rosenblatt .................. 211  
- **GROUP-WORK TUTORIALS FOR AN INTRODUCTORY MATERIALS ENGINEERING COURSE**  
  - Rebecca Rosenblatt, Andrew F. Heckler and Katharine Flores ........................................ 212  
- **PREDICTIVE ASSESSMENT OF STUDENT PERFORMANCE FOR EARLY STRATEGIC GUIDANCE**  
  - Patrick D. Schalk, David P. Wick, Peter R. Turner and Michael W. Ramsdell .................. 212  
- **RENEWABLE ENERGY EDUCATION AT THE COLORADO SCHOOL OF MINES: A SURVEY OF DEVELOPMENT**  
  - Chuck Stone ........................................................... 212  
- **PROBING A DEEPER UNDERSTANDING OF MODERN PHYSICS CONCEPTS**  
  - Jessica Uscinski and Teresa L. Larkin .............................. 212

**Session S3A: Mini Workshop - Exploration of a Direct Method for Measuring ABET Professional Skills**  
Chair: Steve Beyerlein, University of Idaho  
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m.  
Holiday Inn Room Salon D  

- **MINI WORKSHOP - EXPLORATION OF A DIRECT METHOD FOR MEASURING ABET PROFESSIONAL SKILLS**  
  - Steven Beyerlein, Ashley Ater Kranov, Jay McCormack, Pat Pedrow, Edwin Schmeeckpeper and Mo Zhang ........................................ 213

**Session S3B: Problem and Project Based Learning**  
Chair: Jack Mottley, University of Rochester  
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m.  
Holiday Inn Room Salon E  

- **ON IMPLEMENTATION OF PROBLEM-BASED LEARNING IN ENGINEERING EDUCATION: THOUGHTS, STRATEGIES AND WORKING MODELS**  
  - Waddah Akili .......................................................... 213  
- **PROBLEM-BASED LEARNING AND ADAPTIVE EXPERTISE**  
  - Jeffrey E. Froyd ...................................................... 213  
- **WORK IN PROGRESS - PROJECT-BASED SERVICE LEARNING IN ENGINEERING: INVESTIGATING PARTNER RELATIONSHIPS**  
  - Julia D. Thompson and Brent K Jesiek ............................ 214
Table of Contents

**CAPSTONE EXPERIENCES: EFFECTS OF ADAPTED PHYSICAL ACTIVITY DESIGN PROJECTS ON ATTITUDES AND LEARNING**
David W. Hey, Bridie Jean McCarey, Lynne A. Slivovsky, J. Kevin Taylor, Brian Self and James Widmann .......................................................... 214

**WORK IN PROGRESS - A PROBLEM-BASED LEARNING APPROACH FOR SYSTEMS UNDERSTANDING IN THE MSU AES PROGRAM**
Jon Sticklen and Ronald Rosenberg .......................................................... 214

**Session S3C: eLearning: Approaches and Tools**
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Room Salon A
**CLOUD-BASED E-LEARNING INFRASTRUCTURES WITH LOAD FORECASTING**
Agustín C. Caminero, Salvador Ros, Roberto Hernandez, Antonio Robles-Gomez and Rafael Pastor ............... 214

**MECHANISM BASED ON EXPONENTIAL SMOOTHING: A USE CASE**
Manuel Caeiro Rodriguez, Martín Llamas-Nistal, Juan Gonzalez-Tato and Javier Alvarez Osuna ............... 215

**WORK IN PROGRESS - P2E, TOWARDS A GOOGLE HOME PAGE FOR E-LEARNING**
Asad Azemi, Gary Chinn and Thomas Litzinger ........................................ 215

**WORK IN PROGRESS - ENHANCEMENT OF DISTANCE LEARNING THROUGH HYBRID E-LEARNING APPROACH**
Alejandra J. Magana, Prabhakar Marepalli and Jason V. Clark ................................................. 215

**FACILITATING THE DESIGN OF PHYSICS ACTIVE LEARNING PROBLEMS THROUGH AUTHORIZING SIMULATION TOOLS: AUTHORPHYSICS**
Luis Jaime Neri-Vitela, Julieta Noguez, Ivan Leonardo Perez-Cabrera and Gerardo Aguilar-Sanchez .......... 215

**Session S3D: Developing Interest and Skills in Engineering: Teams, Artifacts, Projects, and Decision Making**
Chair: Bernardo Leon de la Barra, University of Tasmania
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Room Salon F
**THE EFFECT OF EMOTIVE LANGUAGE IN VIRTUAL TEAMS**
Nicholas Richter, Linda Williams, Obed Magny and Ray Luechtedfeld ............................................. 216

**MULTIDISCIPLINE INTERACTIONS IN STEM: ANALYSIS BY ARTIFACT**
Paul Schreuders, Matthew Verleger and Kimberly Otteson ................................................. 216

**ALGAE AS A BIOFUEL: AN INTERDISCIPLINARY HIGH SCHOOL CURRICULUM INCORPORATING ENGINEERING, BIOLOGY AND EDUCATION**
Kenneth J. Reid, Debra Gallagher and Robert Verb ............................................. 216

**MATHEMATICS INSTRUCTION USING DECISION SCIENCE AND ENGINEERING TOOLS**
Karen Keene, Richelle Dietz, Krista Holstein and Amy Craig ............................................. 217

**UNIVERSITY OUTREACH IN STEM EDUCATION THROUGH A ROLLER COASTER SCIENCE AND ENGINEERING CAMP**
David P. Wick, Michael W. Ramsdell, Kathleen Fowler, Peter Turner and Patrick D. Schalk .......... 217

**Session S3E: Challenges in Designing CSET Instructional Technology Implementations**
Chair: Keith Garfield, Embry-Riddle Aeronautical University
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Montana Room
**MEASURING CSI PERCEPTIONS OF PARALLELISM**
Brian Rague ............................................. 217

**WORK IN PROGRESS - MUSIC SYNTHESIZERS: A TOOL IN ENGINEERING EDUCATION**
Steven Billis, Nada Anid and Steven Giordano ............................................. 217

**WORK IN PROGRESS - AN INTERACTIVE, EXECUTION-SAFE SYSTEM FOR TEACHING E-COMMERCE USING REAL-TIME FEEDBACK**
William Burns and Alfred C. Weaver ............................................. 218

**WORK IN PROGRESS - A FRAMEWORK FOR BUILDING INTERACTIVE LEARNING MODULES**
Danilo Leite Dalmon, Anarosa Alves Franco Brandao, Seiji Isotani and Leonidas de Oliveira Brandao ............................................. 218

**WORK IN PROGRESS - AN EXAMPLE OF THE VARIATIONS OF VISUAL REPRESENTATIONS IN MECHANICAL ENGINEERING EDUCATION**
Koenraad Gieskes, Charles DeRusso and Roy McGann ............................................. 218
Table of Contents

Session S3F: Insights through Teaching Engineering Design: Mentoring, System Design, Physical Models, Teams, Sustainability

Chair: Adam Carberry, Arizona State University
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Private Dining Room

**AN INTERACTIVE APPROACH TO RENEWABLE ENERGY RESEARCH AND EDUCATION**
Jonathan Bush, Matthew Kane, Kai Segrud, Damon Fick and Ziliang Zong ......................................................... 218

**ASSESSING THE IMPACT OF FACULTY ADVISING AND MENTORING IN A PROJECT-BASED LEARNING ENVIRONMENT ON STUDENT LEARNING OUTCOMES, PERSISTENCE IN ENGINEERING AND POST-GRADUATION PLANS**
Mary Raber, Susan Amato-Henderson and Valerie Troesch .......................................................... 219

**WORK IN PROGRESS - A PROOF-OF-CONCEPT SYSTEM DESIGN USING MODEL DRIVEN ARCHITECTURE**
Joo Tan .................................................................................................................................................. 219

**UNDERSTANDING PHYSICAL MODELS IN DESIGN COGNITION: A TRIANGULATION OF QUALITATIVE AND LABORATORY STUDIES**
Vimal Viswanathan and Julie Linsey .................................................................................................................. 219

**WORK IN PROGRESS – IMPLEMENTING AND EVALUATING EFFORTS TO ENGAGE INTERDISCIPLINARY TEAMS TO SOLVE REAL-WORLD DESIGN CHALLENGES**
Maria Oden, Marcia K. O'Malley, Gary L. Woods and Tracy M. Volz .............................................................. 219

Session S3G: Issues in Computer Science Education: Multicore Programming, Object-oriented Design, Teams, Design Science, Competencies

Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Hammons Room

**WORK IN PROGRESS - COURSE DEVELOPMENT OF PROGRAMMING FOR GENERAL-PURPOSE MULTICORE PROCESSORS**
Wei Zhang .................................................................................................................................................. 220

**TEACHING OBJECT-ORIENTED SOFTWARE DESIGN WITHIN THE CONTEXT OF SOFTWARE FRAMEWORKS**
Zoya Ali, Joseph Bolinger, Michael Herold, Thomas Lynch, Jayashree Ramanathan and Rajiv Ramnath ....... 220

**WORK IN PROGRESS - VERTICALLY INTEGRATED TEAMS TO INSPIRE STUDENT INTEREST IN COMPUTING**
Gregory W. Hislop, Massood Towhidnejad and William M Marcy .............................................................. 220

**TEACHING AND ASSESSING AN INTERDISCIPLINARY SCIENCE OF DESIGN PILOT COURSE**
Guy-Alain Amoussou and Steven J. Steinberg ................................................................................................. 220

**WORK IN PROGRESS - TRANSVERSAL COMPETENCIES CONTRIBUTIONS TO COMPUTER SCIENCE 1 COURSE**
Ines Friss de Kereki ........................................................................................................................................ 220

Session S3H: Gender and Diversity: Tiospaye, Social Media, Microagression, Academic Career Trajectories, Innovation

Chair: Teri Reed-Rhoads, Purdue University
Time: Saturday, October 15, 2011, 1:00 p.m. - 2:30 p.m. Holiday Inn Room Salon BC

**TIOSPAYE IN ENGINEERING AND SCIENCE: INCULCATING A SUSTAINED CULTURE FOR RECRUITING, RETAINING, AND GRADUATING AMERICAN INDIAN STUDENTS**
Jacqueline McNeil, Carter Kerk and Stuart Kellogg ......................................................................................... 221

**WORK IN PROGRESS - USING SOCIAL MEDIA TO TEACH ENGINEERING PROCESS**
Bruce R. Maxim, Margaret Turton and Wassim M. Nahle ............................................................................. 221

"MICROAGGRESSIONS" IN ENGINEERING EDUCATION: CLIMATE FOR ASIAN, LATINA AND WHITE WOMEN
Michelle Madsen Camacho and Susan M. Lord .......................................................................................... 221

**PERFORMANCE TRAJECTORY OF STUDENTS IN THE ENGINEERING DISCIPLINES**
Marisa K. Orr, Ida Ngambeki, Russell A. Long and Matthew W. Ohland ...................................................... 222

**DOES DIVERSITY IN NOVICE TEAMS LEAD TO GREATER INNOVATION?**
Nicholas D. Fila, Ruth E. H. Wertz and Senay Purzer .................................................................................... 222
## Table of Contents

### Session S4A: Panel - Engineering Education in Iberian America
Chair: Melany M. Ciampi, Safety, Health and Environment Research Organization

**Time:** Saturday, October 15, 2011, 3:00 p.m. - 4:30 p.m.  Holiday Inn Room Salon D

**Panel - Engineering Education in Iberian America**

Melany M. Ciampi, Claudio da Rocha Brito, Rosa Vasconcellos, Maria Feldgen and Edmundo Tobar

- **Work in Progress**
  - **Beliefs on Open-Ended Problem Solving**
    - Elliot Douglas, Mirka Koro-Ljungberg, David J. Therriault, Christine Lee, Zaria Malcolm and Nathan McNeill
  - **Work in Progress - Software Residency: A Contribution for Professional Maturity**
    - Luiz Ricardo Begosso, Luiz Carlos Begosso, Alex Sandro Romeo Souza Poletto, Fernando Cesar Lima and Douglas Sanches Cunha

### Session S4B: Enabling and Assessing CSET Learning: Portfolios, Beliefs, Residency, Contexts, and Relationships

**Time:** Saturday, October 15, 2011, 3:00 p.m. - 4:30 p.m.  Holiday Inn Room Salon E

**Work in Progress - The Role of Working Memory and Epistemic Beliefs on Open-Ended Problem Solving**

- Elliot Douglas, Mírka Koro-Ljungberg, David J. Therriault, Christine Lee, Zaria Malcolm and Nathan McNeill

**Work in Progress - Software Residency: A Contribution for Professional Maturity**

- Luiz Ricardo Begosso, Luiz Carlos Begosso, Alex Sandro Romeo Souza Poletto, Fernando Cesar Lima, and Douglas Sanches Cunha

Providing End-to-End Perspectives in Software Engineering

- Michael Herold, Joe Bolinger, Rajiv Ramnath, Thomas Bihari and Jayashree Ramanathan

**Work in Progress - Computer Science E-Portfolios: Perspectives from Upper and Lower Division Students**

- Karen Anewalt and Jennifer Polack-Wahl

- **Identifying and Assessing Relational Understanding in Ordinary Differential Equations**

- Karen Keene, Michael Glass and Jung Hee Kim

### Session S4C: Challenges in Learning Engineering: Problem Solving, Collaboration, Teams, and Communication

**Chair:** Marisa K. Orr, Purdue University

**Time:** Saturday, October 15, 2011, 3:00 p.m. - 4:30 p.m.  Holiday Inn Room Salon A

**A Qualitative Analysis for the Facilitation of Innovative Problem Completion Amongst Dyads of Engineering Students**

- Paul Figueroa, Richard Savage, Ricardo Romero and Ray Luechtefeld

**Mixing Numbers and Letters: Collaboration Between Engineering and English to Improve Graduate Student Work**

- Craig Baltimore, Deborah Wilhelm, Mary Forte and Pamalee Brady

**Inversion of Technical and Communication Emphasis in an Engineering Product Design Class**

- Dave Custer

**Work in Progress - A Feedback System for Peer Evaluation of Engineering Student Teams to Enhance Team Effectiveness**

- Junqiu Wang, P. K. Imbrie and Joe J. Lin

**Work in Progress - Robust Engineering Problems for the Study of Problem Solving Strategies**

- Sarah J. Grigg and Lisa C. Benson

### Session S4D: Approaches to Developing Engineering Learners: Metacognition, Community Colleges, Grading, Co-curricula, Feedback

**Time:** Saturday, October 15, 2011, 3:00 p.m. - 4:30 p.m.  Holiday Inn Room Salon F

**Work in Progress - Using the Levenshtein Distance to Examine Changes to Teams’ Model-Eliciting Activity Solutions Throughout a Semester**

- Jacob Bishop and Matthew Verleger

**Work in Progress - Prediction of Students’ Academic Performance in an Introductory Engineering Course**

- Shaobo Huang and Ning Fang

**Work in Progress – Developing Engineers for 2020 – An Innovative Curricular and Co-curricular Approach**

- Monica J. Bruning, Diane T. Rover and Ana M. Williams

October 12 - 15, 2011, Rapid City, SD  
41st ASEE/IEEE Frontiers in Education Conference
Table of Contents

THE ITASCA CC ENGINEERING LEARNING MODEL
Bart Johnson and Ron Ulseth ........................................... 226

WORK IN PROGRESS - USING MULTIPLE METHODS TO INVESTIGATE THE ROLE
OF FEEDBACK IN OPEN-ENDED ACTIVITIES
Monica E Cardella, Heidi A Diefes-Dux, Matthew Verleger, Amanda Fry and Mark T Carnes ......................... 226

Session S4E: Institutionalizing Innovations in CSET Education
Time: Saturday, October 15, 2011,  3:00 p.m. - 4:30 p.m.  Holiday Inn Montana Room
WORK IN PROGRESS - TENSIONS WITH PBL IMPLEMENTATION IN UNDERGRADUATE ENGINEERING EDUCATION – PRELIMINARY RESULTS FROM TEACHING PRACTICE
Angela van Barneveld and Johannes Strobel ........................................... 226
WORK IN PROGRESS - IMPROVING THE DISSEMINATION OF CCLI (TUES)
EDUCATIONAL INNOVATIONS
Joseph G Tront, Flora P. McMartin and Brandon Muramatsu ........................................... 226
CURRICULA DESIGN MODEL FOR DESIGNING AND EVALUATING SYSTEMS AND COMPUTING ENGINEERING PROGRAMS
Jorge Villalobos, Oscar Gonzalez Rojas, Claudia Jimenez and Francisco Rueda ........................................... 227
SYSTEMATIC ANALYSIS OF PEER INTERACTION IN COOPERATIVE LEARNING
Chien-Hung Lai, Bin-Shyan Jong, Yen-Teh Hsia, Pai-Feng Lee and Te-Yi Chan ........................................... 227

Session S4F: Facilitating Students in Learning CSET Design
Chair: Cesar Cardenas, Tecnologico de Monterrey - Campus Queretaro
Time: Saturday, October 15, 2011,  3:00 p.m. - 4:30 p.m.  Holiday Inn Private Dining Room
LEARNING FROM AN INITIATIVE – HANDS-ON ROBOTICS WORKSHOPS BY IEEE STUDENT BRANCH
Tuhin Subhra Mukherjee and Prithwijaraj Purkait ........................................... 227
WORK IN PROGRESS – ANALYZING ENGINEERING STUDENT CONCEPTIONS OF MODELING IN DESIGN
Adam R. Carberry and Ann F. McKenna ........................................... 228
COGNITIVE DISSONANCE DURING ENGINEERING DESIGN
Senay Purzer, Jonathan C. Hilpert and Ruth E.H. Wertz ........................................... 228
A COMPARATIVE STUDY OF ACADEMIC PARTNERSHIPS FROM A STUDENT PERSPECTIVE
Amalia Rusu and Spoorthy Gowda ........................................... 228
WORK IN PROGRESS - CREATING A PROFESSIONAL SOFTWARE DEVELOPMENT ENVIRONMENT TO SUPPORT CAPSTONE PROGRAMMING PROJECTS
Meg Coffin Murray ........................................... 228

Session S4G: Outposts in Engineering Laboratories: Remote Experiments, Personal Laboratories, System Performance, Simulations
Chair: Maria Cristina Costa Lobo, ISEP - Polytechnic of Porto
Time: Saturday, October 15, 2011,  3:00 p.m. - 4:30 p.m.  Holiday Inn Hammons Room
USING REMOTE EXPERIMENTATION IN A LARGE UNDERGRADUATE COURSE: INITIAL FINDINGS
M. C. Costa Lobo, Gustavo R. Alves, M. A. Marques, C. Viegas, R. G. Barral, R. J. Couto,
F. L. Jacob, C. A. Ramos, G. M. Vilao, D. S. Covita, Joaquim Alves,
P. S. Guimaraes and Ingvar Gustavsson ........................................... 229
WORK IN PROGRESS - A HARDWARE PLATFORM FOR A CONTINUOUS-TIME SIGNALS AND SYSTEMS COURSE
Mario Simoni ........................................... 229
AN ADVANCED LEVEL RADIO-FREQUENCY CIRCUIT COURSE WITH LABORATORY AND DESIGN EXERCISES THAT EMPHASIZE COMPLETE SYSTEM PERFORMANCE
Taylor Barton and Mariano Alvira ........................................... 229
TEACHING EXPERIENCES IN WIND ENERGY: SIMULATIONS AND LABORATORY EXPERIMENTS
Angel Molina-Garcia, Juan Alvaro Fuentes, Emilio Gomez-Lazaro
and Antonio Vigueras-Rodriguez ........................................... 229
WORK IN PROGRESS - A TRANSPARENCY AND SCAFFOLDING FRAMEWORK FOR COMPUTATIONAL SIMULATION TOOLS
Alejandra J. Magana, Dragica Vasiljeska and Shaikh S. Ahmed ........................................... 229
**Table of Contents**

**Session S4H: Can students learning CSET subjects through games?**

*Time: Saturday, October 15, 2011, 3:00 p.m. - 4:30 p.m. Holiday Inn Room Salon BC*

*EARLY PROJECT BASED LEARNING IMPROVEMENTS VIA A “STAR TREK ENGINEERING ROOM” GAME FRAMEWORK, AND COMPETITION*

Peter Jamieson .................................................................230

*WORK IN PROGRESS - USING MOBILE & SOCIAL GAME TECHNOLOGY WITH LOCATION-BASED SERVICES FOR BUILDING LEARNING COMMUNITIES*

Anthony Ellerton and Patrick Seeling ...................................................230

*NASH MEETS VAN VALKENBURG: A GAME-THEORETIC APPROACH TO EFFECTIVE LEARNING AND TEACHING IN ENGINEERING*

Quanyan Zhu .................................................................................230

*WORK IN PROGRESS - USING A COMPUTER GAMING STRATEGY TO FACILITATE UNDERGRADUATES’ LEARNING IN A COMPUTER PROGRAMMING COURSE: AN EXPERIMENTAL STUDY*

Kuo-Chuan (Martin) Yeh and Wei-Fan Chen ...................................................230

*ASSessment of the Pilot Implementation of a Game-Based Gear Design Laboratory*

Yizhe Chang, El-Sayed S. Aziz, Sven K. Esche and Constantin Chassapis .................................................................231
INSERT VIRGINIA TECH ENGINEERING EDUCATION AD
